#20: Catalog of APW Language Numbers

Revised by:
1990

Matt Deatherage March

Written by:
1987

Jim Merritt August

This Technical Note formerly listed APW Language Number assignments, which correspond to auxiliary type values of file type \$B0.

Changes since November 1988: This information is now documented in Apple II File Type Notes, specifically Notes of file type \$B0.

The correspondence between APW Language Numbers and auxiliary type values for \$B0 files is no longer one-to-one. Although all APW Language Numbers are stored with their source files in the auxiliary type field, there now exist assignments of auxiliary type values for file type \$B0 which are not APW languages.

Therefore, the contents of this Note can now be found in the File Type Note for file type \$B0, where all such assignments of either kind are still called “APW Language Numbers.”
