

```
#introduction panel
<Define Panel> "CreateCustomIntro"
#this panel has an active Huh? button
<Dimmable Button Data> "Huh?", "HuhCompareManualAndAuto"
<Panel Prompt> "introprompts"
<Format> "Full2"
<Hot Text> "AppleScript", ALL, LaunchNewSequenceNewWindow("Defns:AppleScript")
You can create a custom dictionary manually or by using AppleScript. For a comparison of
these two
methods, click Huh? below.
<End Panel>
