#####
```

```
#
#      Lowercase Monaco 9, the MPW default, is used throughout the
#      scripts
#
#      The script's style is written as close as possible to the C
#      language standard set by Ritchie/Kernighan
#
#      Each topic has its own panel and sequence file
#
#      Context check function name starts with a uppercase letter,
#      delineates long name by uppercase letter too
#
#      Find ##bug to check known bugs
#
```
