Demodex

1.1 The demos on Aminet

The demos on Aminet CD 31

Best demos	The top demos on this CD, ready to run
Good demos	The good demos on this CD, ready to run
Compatible demos	The remaining demos that work on an A4000/040
Other demos	The demos that cannot be run directly

Make sure you have no unsaved work in memory when starting demos, they may crash or alter your system configuration. Also, many demos force you to reboot. The BootTool can automatically bring up a list of demos you haven't seen yet at every startup.

And here's the complete list of demos. Some don't work on accelerated Amigas, others need to be installed, and some are just data files for other demos.

demo/aga	Demos requiring AGA chipset
demo/ecs	Demos for the ECS chip set
demo/intro	Intros
demo/mag	Demo coder magazines
demo/slide	Image oriented demos
demo/sound	Sound oriented demos

1.2 The Boot Tool

The Boot Tool

Don't you hate demos that have no exit, thereby forcing you to reboot after every demo viewed? Well, I can't change those demos, but I can make the rebooting as painless as possible.

If you drag the program 'BootTool' from the Tools drawer to your WBStartup drawer (OS 2.0 and up), you'll be seeing the list of no-exit demos at

every startup. You can click any of those demos to run it. After the reboot, that demo and all that were above it will be removed from the list automatically.

If you want to show all demos again, click 'Show All' at the bottom of the list and reboot. If you want to stop viewing demos, click 'Uninstall' at the bottom of the list. You can, however, drag the BootTool to the WBStartup drawer again and continue from where you left off.

Install BootTool in your WBStartup drawer
Run BootTool for a first go
