TaskArrowSm.tiff ↪ Little arrow markers like this are for making a series of points that aren't as important as checkmark type points.

284212_TaskArrowSm.tiff ↪ They can appear inline in text instead of at the beginning of a line all the time.

388468_12ptHevBlk.tiff ↪ These little numbers are tiff files (ugghh)

182242_12ptHevBlk.tiff ↪ 1-3 are provided here...

951533_12ptHevBlk.tiff ↪ If you need more than three you must create them. Why not use bold typed numbers instead?

The dotted and solid lines are for separating things.

CheckMark.tiff ↪ Help key; ↪ When you hold down a Help key, the cursor

changes to a question mark HelpCursor.tiff ↪.

38470_CheckMark.tiff ↪ NoHelpKey;↪If your keyboard doesn't have a Help key, you can get the question mark cursor by holding down the Alternate and Control keys at the same time.

898968_CheckMark.tiff ↪When you click something with the question mark cursor, the Help panel opens. The help you requested appears in the panel (where you're reading right now).
