

# Sending;␣Preferences

Use the Preferences panel to specify how bitmap images in PICT files should be treated, what set of PostScript code should be written out, and what character set conversions should be made.

paste.tiff ␣

;Bitmap conversion.rtfdd;;␣

321092\_PixelDottedRulePadded.tiff ␣

To change the  
bitmap preferences.

;Character set conversion.rtfdd;;␣

To change the set  
of PS code used.

;PS code set.rtfdd;;␣

To specify character  
conversion settings.
