

Sending; \neg Preferences

Use the Preferences panel to specify which direction rtf files should be converted in by default, to specify what character conversions should be performed on the text, to specify how PICT images should be processed, and one aspect about older NeXT rtf files.

paste.tiff \neg

```
;Default Conversion.rtf;;¬          ;Text preferences.rtf;;¬  ;PICT
conversion.rtf;;¬;NeXT2Mac.rtf;;¬
```

1PixelDottedRulePadded.tiff ↗
