

# Release notes

(UNIX-Haters Tool v0.1)

438886\_paste.tiff ↪

TaskArrowSm.tiff ↪ Here is a partial list of the features this application has.  
229874\_TaskArrowSm.tiff ↪ This was designed to keep me from hacking those ever returning UNIX level commands I tend to type every day.

291955\_PixelRule.tiff ↪

220329\_CheckMark.tiff ↪Provides a simple interface to..at least my..every day tasks:

- uucico
- uustat
- newsrun
- sendbatches
- ps
- kill
- df
- pppup, pppdown
- showing certain log files.

613165\_CheckMark.tiff ↪To be able to use all the features this app either has to be run by root or setuid to root (see the bugs section for details).

383442\_CheckMark.tiff ↪Most useful for single machine sites because big sites let cron do the nasty work and mostly have all the fancy Internet stuff.

796245\_CheckMark.tiff ↪Supports extended App.info for yet to come Workspace inspectors.

187441\_CheckMark.tiff ↪Should not crash. SimpleSmiley.tiff ↪
