Palettes
28 Interface Builder palettes

BarChart *Palette*
by Joe Freeman, NeXT Systems Engineer
This palette demonstrates how to use your custom UI objects with the DBKit.
It illustrates in particular the DBCustomAssociation protocol which allows
you to retrieve or set values to your database via a custom view object (here
the ChartOfMatrix view).
Includes source code.
Motorola/Intel/PA-RISC/SPARC

Calcuator *Palette*
by Jiro Nakamura
Source code for the Calculator used in Cassandra
Includes source code.
Motorola/Intel/PA-RISC/SPARC

Calendar *Palette*

by Jim Million
Calendar.palette is a 3.0 InterfaceBuilder View palette for the Control subclass Calendar. Calendar is a simple UI widget for presenting and selecting dates in a calendar form.
Includes source code
Motorola/Intel/PA-RISC/SPARC

CircularSlider *Palette*
by Vince DeMarco
Includes source code
Motorola/Intel/PA-RISC/SPARC

Clocks *Palette*
by Jim Million
Clocks.palette is a 3.0 InterfaceBuilder View palette for the Control subclasses AnalogClock, CalendarClock, and DigitalClock (all direct subclasses of Clock).
Includes source code
Motorola/Intel/PA-RISC/SPARC

ColorBrowser *Palette*
by Jim Million
  ColorBrowser.palette is a 3.0   InterfaceBuilder View palette for the
  NXBrowser subclass ColorBrowser.   ColorBrowser uses a
  ColorBrowserCell as its Cell class.
  Includes source code
  Motorola/Intel/PA-RISC/SPARC

  ConnectDemo *Palette*
by Andreas
It fully implements the functionality of IBConnectInspector (exceptions
mentioned below). Also, there are only minor differences in the outfit of the
interface to help the stressed programmer finding the right buttons.
Includes source code
      Motorola/Intel/PA-RISC/SPARC

CVS *Palette*
by Bob_Vadnais

This palette preserves the CVS administrative directories within nib documents (directories) that Interface Builder usually blows away. Includes source code
Motorola/Intel/PA-RISC/SPARC

DAYString *Palette*
Release 1.2 by Don Yacktman
Includes source code
Motorola/Intel/PA-RISC/SPARC

Document   *Palette*
by Adam Hertz (original code), revised by Mike Riggs, edited by Mai Nguyen
This palette is a subclass of Control. It shows how to conveniently store files into the database using their absolute pathnames, instead of the data associated with them, and let the Workspace do the work for opening or reading the files.
Includes source code
Motorola/Intel/PA-RISC/SPARC

HotShape *Palette*
Version 9 December 4, 1993
Includes source code
Motorola/Intel/PA-RISC/SPARC

IBMole *Palette*
The IBMole publishes InterfaceBuilder's NXApp variable as a
distributed object. From there you can get a list of the documents
open in IB and the objects which lie therein, and then manipulate
them programmatically.
Includes source code
Motorola/Intel/PA-RISC/SPARC

KeyDownBrowser *Palette*
by Jim Million
KeyDownBrowser.palette is a 3.0 InterfaceBuilder View palette for
the NXBrowser subclass KeyDownBrowser. KeyDownBrowser
extends NXBrowser to provide Workspace Manager-like response

to keyboard entry.
Includes source code
     Motorola/Intel/PA-RISC/SPARC

MailComposer *Palette*
Verison 1.0
by Jim Million
MailComposerPalette is a 3.0   InterfaceBuilder Object palette.   With this palette, you can remotely open, write to, and deliver 'Compose' windows in Mail.app.
Includes source code
     Motorola/Intel/PA-RISC/SPARC

Object *Palette*
by Charlie
  This is is a quick example in the "mini-example" vein. It is a demonstration of   how to generate an object palette for Interface Builder. The object itself does very little (adds two numbers and returns the result), so the example should only be considered as a

skeleton of how to develop object palettes.
Includes source code
    Motorola/Intel/PA-RISC/SPARC

OOPSPalette *Palette*
Includes source code
    Motorola/Intel/PA-RISC/SPARC

PAScrollViewDeluxe *Palette*
By Jeff Martin
This object is an enhanced subclass of ScrollView.
Includes source code
    Motorola/Intel/PA-RISC/SPARC

PAStringList *Palette*
by Jeff Martin
These two objects are used for generating and maintaining lists of strings and filenames.
Includes source code

Motorola/Intel/PA-RISC/SPARC

PAThumbWheel *Palette*
Includes source code
Motorola/Intel/PA-RISC/SPARC

PSAction *Palette*
PSActionPallete implements an object class and InterfaceBuilder
palette that can be viewed as a way to add simple scripting to
InterfaceBuilder (using PostScript as the scripting language) or as a
simple PostScript previewer object class.
Includes source code
Motorola/Intel/PA-RISC/SPARC

RotationSlider *Palette*
by Don Yacktman
RotationSliderPalette.palette is a 3.0 InterfaceBuilder View palette
for the Slider subclass RotationSlider.   RotationSlider is a simple UI
element which implements a slider which is circular in shape,

rather than straight.   A RotationSlider's appearance is similar to that
of certain sliders appearing in several Stone Design products,
except that it has a proper bezel and a different knob.
Includes source code
Motorola/Intel/PA-RISC/SPARC

SwitchBox *Palette*
Version 2.0 Sept 14 1992 by Nicholas Christopher
A SwitchBox is a View that allows its subview to be switched on request.
The subview is switched to one of a set of predefined views. The separate
subviews are assigned to the views of other panels, windows or boxes.
Includes source code
Motorola/Intel/PA-RISC/SPARC

TablePrinter *Palette*
An InterfaceBuilder palette which nicely formats and prints DBTableViews.
Includes source code
Motorola/Intel/PA-RISC/SPARC

TabMatrixPalette1.5 *Palette*
Version 1.5 by Sean Hill
Includes source code
     Motorola/Intel/PA-RISC/SPARC

TTools (2.0) *Palette*
by Thomas Burkholder, NeXT Developer Support Team
To provide an educational example of advanced palette-building techniques.
To address issues associated with managing a large palette project.
To push the envelope of IB tools.
Includes source code
     Motorola/Intel/PA-RISC/SPARC

WLabeledSlider *Palette*
Version March 25, 1993
WLabeledSliderPalette is a really simple palette that has a new slider on it that
let's you have outlets for min, max, and current values of a slider.
Includes source code
     Motorola/Intel/PA-RISC/SPARC

3.0JoyStick *Palette*
by James Moosmann, Ian Stephenson
  A simple Joystick object, written to try out writing an IB pallete.
  Simply drag it into your application, and add JoyStick.[hm] to the
  project.
Includes source code
Motorola/Intel/PA-RISC/SPARC
