

Q: What is the maximum weight of paper you can use in the NeXT Printer?

Q: What is the maximum size and number of pages you can use in the NeXT Printer?

A: Different countries use different paper measurement schemes.

In the United States, paper weight is traditionally measured in "pounds per square foot." In Europe it is measured in grammes per square meter (gsm).

- **Maximum Paper Size/Weight**

- *Cassette feed*

- 60-80 gsm paper (Grammes per square meter or g/m²)

- or

- 34 pound paper

- *Manual feed*

- Plain paper from 100mm x 175mm to 216mm x 356mm (60 gsm to 128 gsm).

- **Cassette Capability**

- A4/Letter selection (Depth: 16mm - approx 150 sheets of 80 gsm paper)
