Preface xxiii

Audience xxiv
Prerequisites xxiv
Hardware and Software xxv
Interface Tools: To Use or Not? xxvi
Organization xxvii
Conventions xxix
Tools Used to Create This Book xxx
Obtaining the Source Code xxxi
Author's Biography xxxi
Contacting the Author xxxi
Acknowledgments xxxii

Chapter 1 NeXTSTEP Components 1

1.1 Mach and UNIX 2
1.2 The Window Server 3
1.3 The Application Kit 4
1.4 Objective-C 5
1.5 The Workspace Manager 5
1.6 ProjectBuilder 5
1.7 InterfaceBuilder 6
1.8 Summary 6

Chapter 2 OOP and Objective-C 7

2.1 Goals 7
2.2 Object-Oriented Programming 8
2.2.1 Encapsulation 9
2.2.2 Classes 10
2.2.3 Instances 10
2.2.4 Subclasses 13
2.2.5 Messages 17
2.2.6 Polymorphism 18
2.3 Objective-C 21
2.3.1 Support for Abstract Data Types 23
2.3.2 Messages 24
2.3.3 Naming Conventions 25

2.3.4 Objective-C Comments....26
2.4 A Sample Objective-C Application....27
2.4.1 Defining Classes....31
2.4.2 Class Methods and Instance Methods....35
2.4.3 Messaging Mechanisms....36
2.4.4 Methods and Functions....40
2.4.5 Self and Super....41
2.4.6 Instantiating Classes....44
2.4.7 Initializing Instances....45
2.4.8 Freeing Objects....46
2.5 Suggestions....50
2.5.1 Printing the Indices of the List's Contents....50
2.5.2 Freeing the List and its Contents....51
2.6 Summary....51

Chapter 3 Object-Oriented Design....53

3.1 Goals....53
3.2 Methodology....54
3.2.1 Identifying the Objects....55
3.2.2 Determining What Each Object Does....57
3.2.3 Identifying the Relationships Between the Objects....59
3.2.4 Modeling the Flow of the Application....60
3.3 Designing ShapeArea....61
3.4 Tools and Techniques....62
3.4.1 CRC Cards....62
3.4.2 Class Summary Tables....66
3.4.3 Message Diagrams....68
3.4.4 Hierarchy Graphs....70
3.5 Implementing ShapeArea....70
3.5.1 Implementation Pass I....72
3.5.2 Implementation Pass II....80
3.5.3 Implementation Pass III....89
3.6 Common Pitfalls in OOD....94
3.7 Suggestions....96
3.8 Summary....96

Chapter 4 The Application Kit 99

4.1 Goals 99
4.2 The Application Kit Classes 99
4.3 The Common Classes 102
4.4 A NeXTSTEP Application vs. an Objective-C Application 103
4.5 A Minimal NeXTSTEP Application 104
4.5.1 Design 105
4.5.2 Implementation Pass I: Displaying a Window 111
4.5.3 Implementation Pass II: Adding a Quit Menu Option 117
4.6 Suggestions 121
4.7 Summary 121

Chapter 5 ProjectBuilder and InterfaceBuilder 123

5.1 Goals 124
5.2 The Development Cycle 124
5.2.1 Starting a Project 126
5.2.2 Adding the Objects 133
5.2.3 Inspecting the Objects 134
5.2.4 Making the Connections 138
5.2.5 Testing the Interface 141
5.2.6 Compiling the Application 142
5.2.7 Launching the Application 144
5.2.8 Decomposing a NeXTSTEP Application 146
5.3 Summary 148

Chapter 6 Processing Events 149

6.1 Goals 149
6.2 Event-Driven Programming 150
6.3 The Target-Action Paradigm 153
6.3.1 The Button Class 154
6.3.2 The Slider Class 161
6.3.3 The TextField Class 165
6.3.4 The Form Class 168
6.4 The Delegation Paradigm 172
6.5 Designing Money 180
6.6 Implementing Money 186

6.7 Walking Through the Code 196
6.8 Suggestions 197
6.8.1 Adding Another Menu Option 197
6.8.2 Setting a Window's Minimum Size 198
6.8.3 Autosizing 203
6.9 Troubleshooting 205
6.10 Summary 207

Chapter 7 Drawing With PostScript 209
7.1 Goals 209
7.2 The View Class 209
7.2.1 Creating a View 210
7.2.2 Adding Subviews 213
7.2.3 Displaying the Views 214
7.3 Mouse Events 218
7.4 Converting Coordinates 220
7.5 PostScript 222
7.5.1 PostScript Primer 224
7.5.2 PostScript Special Effects 229
7.5.3 Interfacing to Objective-C Using Single Operators 232
7.5.4 Interfacing to Objective-C Using pswraps 234
7.6 Instance Drawing 237
7.7 Designing Shapes 241
7.8 Implementing Shapes 252
7.9 Walking Through the Code 269
7.10 Suggestions 274
7.10.1 Adding Support for Printing 274
7.10.2 Drawing Shadows 274
7.10.3 Adding a Triangle Class 275
7.10.4 Detecting Mouse Clicks 275
7.11 Troubleshooting 276
7.12 Summary 278

Chapter 8 Customizing NeXTSTEP Applications 279
8.1 Goals 279
8.2 The Defaults Database 279
8.2.1 Reading Defaults with dread 280

8.2.2 Registering Defaults....281
8.2.3 Writing Defaults with dwrite....288
8.3 Using Multiple .nib Files....289
8.3.1 Setting the File's Owner....290
8.3.2 Initializing Outlets....292
8.4 Redesigning Money: Adding a Preferences Panel....296
8.5 Implementing Money....309
8.6 Examining the Code....324
8.7 Suggestions....333
8.7.1 Implementing the Quit Prompt....333
8.7.2 Adding Support for Significant Figures....333
8.7.3 Implementing Dynamic Conversion Rates....334
8.7.4 Adding an Info Panel....334
8.8 Troubleshooting....334
8.9 Summary....336

Chapter 9 Processing Text....337

9.1 Goals....337
9.2 Creating the Text....338
9.3 Selecting the Text....339
9.4 Cutting and Pasting the Text....341
9.5 Setting the First Responder....343
9.6 Scrolling the Text....345
9.7 Saving the Text....350
9.7.1 Using the SavePanel....351
9.7.2 Writing the Text to a File....354
9.8 Loading the Text....357
9.8.1 Using the OpenPanel....357
9.8.2 Loading the Text From a File....361
9.9 Adding a Text Delegate....362
9.10 Designing Words....364
9.11 Implementing Words....374
9.12 Walking Through the Code....387
9.13 Suggestions....397
9.13.1 Enabling the Menu Options....398
9.13.2 Updating the OpenPanel and SavePanel....398

9.13.3 Adding Printing Support 398
9.13.4 Saving Part of a Document 400
9.13.5 Adding a Preferences Panel 400
9.13.6 Opening Files from the Workspace 402
9.14 Troubleshooting 408
9.15 Summary 409

Chapter 10 Implementing On-Line Help 411
10.1 Goals 411
10.2 The On-Line Help System 411
10.3 Using Links 413
10.4 Using Markers 415
10.5 Adding On-line Help to Words 417
10.6 Troubleshooting 424
10.7 Suggestions 426
10.7.1 Adding the Help Entries to the Index 427
10.7.2 Creating More Help Entries 427
10.7.3 Adding Graphics to the Help Files 427
10.8 Summary 427
10.9 Epilogue 428

Appendix A A NeXTSTEP Tutorial 431

Appendix B Tools of the Trade 447
B.1 Edit 447
B.1.1 Using the Implicit Expansion Dictionary 447
B.1.2 Customizing the Expansion Dictionary 449
B.1.3 Contracting and Expanding the Listing 452
B.2 Digital Librarian 453
B.2.1 Expanding the Search String 456
B.2.2 Limitations of Digital Librarian 457
B.3 HeaderViewer 458
B.3.1 Language Elements 459
B.3.2 Using the Find Controls Options panel 460
B.3.3 HeaderViewer vs. Digital Librarian 463
B.4 Terminal 465
B.4.1 Copying Text 465

B.4.2 Messaging the Workspace 468
B.4.3 Messaging HeaderViewer....469
B.4.4 Messaging Digital Librarian....470
B.5 The make Utility....470
B.5.1 The Makefile 470
B.5.2 Removing Files: make clean 474
B.5.3 Installing the Application: make install 474
B.5.4 Deinstalling the Application: make deinstall 475
B.5.5 Makefiles for the Applications 476
B.5.6 Error Messages in make 480

Appendix C Common NeXTSTEP Mistakes 483
C.1 Runtime Errors 483
C.2 Warnings....486

Appendix D Debugging 491
D.1 Tracing the Program....491
D.1.1 Tracing a Non-Event Driven Application 492
D.1.2 Tracing an Event-Driven Program 493
D.1.3 Implicit and Explicit Message Sending 498
D.1.4 Reverse-engineering an Application 501
D.2 Debugging with gdb....504
D.2.1 Compiling for Debugging 504
D.2.2 Setting BreakPoints....508
D.2.3 Running the Application 509
D.2.4 Printing Variables....510
D.2.5 Single-Stepping....512
D.2.6 Browsing Objects....514
D.2.7 Continuing the Execution....518
D.2.8 Setting Variables 519
D.3 Suggestions 521
D.4 Summary 521

Appendix E Resources.... 523
E.1 Bundled Documentation and Source Code....523
E.2 Books....524
E.2.1 NeXTSTEP....524

E.2.2 Object-Oriented Design and Technology 525
E.2.3 Object-Oriented Programming and Objective-C 525
E.2.4 PostScript 526
E.2.5 C 527
E.2.6 UNIX 527
E.2.7 User-Interface Design 528
E.2.8 Miscellaneous 528
E.3 Magazines and Journals 529
E.4 Internet Archives 530
E.4.1 Using anonymous ftp 531
E.4.2 Using the Mail Server 532
E.4.3 Unpacking the Data 533
E.5 NeXTAnswers 534
E.6 Newsgroups 534
E.7 Users Groups 535
E.8 Special Interest Groups Mailing Lists 571
E.9 Bulletin Boards 572
E.10 Associations 573
E.11 Conventions 573

Appendix F Porting to NeXTSTEP/Intel 575
F.1 Hardware Considerations 576
F.1.1 The Screen 576
F.1.2 The Mouse 578
F.1.3 The Keyboard 578
F.1.4 Sound 580
F.2 Data Representation Considerations 580
F.2.1 Datum Size 580
F.2.2 Byte Alignment 581
F.2.3 Byte Order 581
F.2.4 Datum Format 582
F.2.5 Argument Passing 582
F.2.6 External Data 583
F.2.6.1 Reading and Writing Structure Bitfields 584
F.2.6.2 Reading Existing Files 588

F.2.7 Internal Data....593
F.2.8 Memory-mapped Data....594

Index....597
