Items: The list of items controlled is contained in the ECCN heading.

9E991 “Technology”, for the “development”, “production” or “use” of equipment controlled by 9A991 or 9B991.
License Requirements
Reason for Control: AT

Control(s)	Country Chart
AT applies to entire entry	AT Column 1

License Exceptions
CIV: N/A
TSR: N/A
List of Items Controlled
Unit: \$ value
Related Controls: N/A
Related Definitions: N/A
Items: The list of items controlled is contained in the ECCN heading.

EAR99 Items subject to the EAR that are not elsewhere specified in this CCL Category or in any other category in the CCL are designated by the number EAR99.

Supplement No. 2 to Part 774 — General Technology and Software Notes

I. *General Technology Note.* The export of “technology” that is “required” for the “development”, “production”, or “use” of items on the Commerce Control List is controlled according to the provisions in each Category.
“Technology” “required” for the “development”, “production”, or “use” of a controlled product remains controlled even when applicable to a product controlled at a lower level.
License Exception OTS is available for “technology” that is the minimum necessary for the installation, operation, maintenance (checking), and repair of those products that are eligible for License Exceptions or that are exported under a license.

N.B.: This does not allow release under a License Exception of the repair “technology” controlled by 1E002.e, 1E002.f, 7E003, or 8E002.a.

N.B.: The ‘minimum necessary’ excludes “development” or “production” technology and permits “use” technology only to the extent “required” to ensure safe and efficient use of the product. Individual ECCNs may further restrict export of “minimum necessary” information.

II. *General Software Note.* License Exception TSU (“mass market” software) is available to all destinations, except Cuba, Iran, Iraq, Libya, North Korea, Sudan, and Syria, for release of software that is generally available to the public by being:
a. Sold from stock at retail selling points, without restriction, by means of:
1. Over the counter transactions;
2. Mail order transactions; or
3. Telephone call transactions; and
b. Designed for installation by the user without further substantial support by the supplier.

Note: License Exception TSU for mass market software does not apply to encryption software controlled for EI reasons under ECCN 5D002. Encryption software may become eligible after a one-time BXA review according to the provision of §742.15(b)(1) of the EAR.
