As well as two disc burning packages, we have a web commerce package for all you budding internet entrepreneurs and a clever webcam application. The DVD edition gives you three more goodies to clear system debris, retrieve Flash files and earn your internet stripes

cover disc: CD

There's no more excuses for not backing up your hard disk and doing a lot more archiving besides with our two CD burning programs – one for general use and the other for video. You can also get your online boutique up and running, and add new functions to your humble webcam.

NTI CD-Maker Deluxe

CD-Maker is a one-stop-shop for all your CD burning needs. Whether you're transferring your most vital files, your favourite tunes or best film moments, CD-Maker turns it into a quick, step-by-step process. You can even make voice recordings straight to disc. Address those burning issues now.

Astrosell Small Store

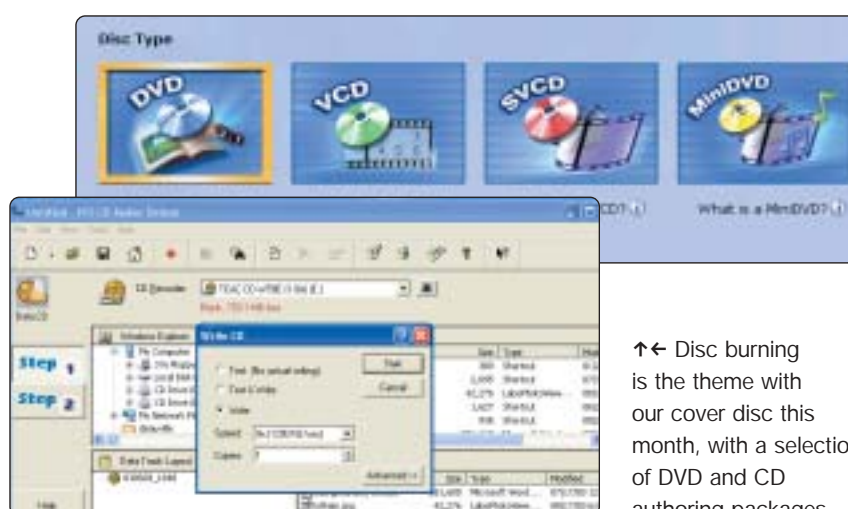

Get your own web shop up and running with Astrosell Small Store. This one-year version of the e-commerce solution allows you to list up to 20 items.

ADS CameraView 1.0

Sick of jerky, slow-motion video with sound that has a two second delay? Then get more from your webcam with CameraView.

PowerProducer 1.0

If you have loads of home movies or photos languishing on our hard drive, PowerProducer can help you make use of them. Search them out, dust them off and compile your own DVDs or CDs. ■

↔ Disc burning is the theme with our cover disc this month, with a selection of DVD and CD authoring packages

Cover disc liability

The CD-ROM and DVD on the cover of PC Advisor are supplied as is, subject to the following terms and conditions. The CD-ROM and DVD are provided as free items to readers of PC Advisor for their personal use, and may not be resold or copied for distribution. The publisher shall have no liability without limitation for any losses or damage arising from using these software programs or taking advice from the cover disc helpline, including any loss of profit, damage to equipment or data, interruption of business, or any other damage, direct or accidental.

It is recommended that you back up any programs and data on your hard disk before installing this software. Where telephone numbers are given for registration of cover disc software, these lines may only be valid for a limited period. PC Advisor cannot be held responsible for discontinued offers. This does not affect your statutory rights.

PC Advisor 2003 © IDG Communications

cover disc: DVD

On top of the great software you'll find on the CD, the DVD has something extra – three more full programs and 10 unmissable games demos.

SecureClean Scanner

Ever got the feeling there's probably more stuff lurking on your computer than you need, want or even know about? Your hard drive is constantly salting away useless information and SecureClean is here to help you weed it out. Get rid of all those pointless internet caches, passwords and supposedly deleted files that turn your sleek, efficient system into a lumbering mess.

Woof

If you've ever had trouble putting your hand on Flash files or Jpegs, now you can just leave it to Woof. This program has all the persistence of a bloodhound in seeking out Flash files on your system or on the web, but none of the panting, dribbling or hair-shedding of an actual dog. Never lose a Flash file again.

↑ So you thought you'd deleted that sensitive email? SecureClean will make sure that you do

European Computer Driving Licence Module 7

The ECDL is the only widely accepted general qualification in basic computer use and 'atyour speed' tutorials are an easy way to pass it. In this trial we bring you Module 7, internet and email. ■

← Woof will fetch and let you view all the Flash files on your hard drive or on a specific website

How to load the programs on the CD and DVD

1 Insert the disc into your CD-ROM or DVD-ROM drive. The *PC Advisor* main menu screen should appear after a few seconds. If not, type d:\master.exe (where D is the letter of your CD or DVD drive).

2 Click Continue at the Welcome screen. Running along the top of the next screen you will see a set of tabs; you need to click on one of these to access the software in that section.

3 Once you have clicked on the tab relating to the section you want to view – say Internet toolbox, for instance – next select, from the lefthand list, the program that you want to install. You will then see that package's details on the righthand side of the screen and a blue Install button; click this to load up the program. Click View to download a program from the relevant website.

4 If you experience any problems, refer to the manual instructions on pages 178-179 or see the related Read Me file. Alternatively, use Windows Explorer to find the program executable you require and double-click to launch it. If the program still won't load visit our website or call the helpline. Please remember that *PC Advisor* can only assist with installation difficulties.

DVD extras

Readers with the DVD edition of the magazine can enjoy all the content from our CD edition (listed opposite) as well as the following great extras...
