cover disc

Knowledge is power and our two CDs bring you both in spades this month. Once you've mastered PC basics with Modules 1&2 of the internationally recognised ECDL course, there's troubleshooting and housekeeping advice on disc two and a great tool to hide your web trail

European Computer Driving Licence

EXCLUSIVE FULL PROGRAM

The European Computer Driving Licence is a study pack for the ECDL qualification recognised throughout Europe. The disc gives you easy links to the company's website, where typing in your postcode you can find your nearest test centre. But if tests aren't your cup of tea this package is ideal for reference.

A spreadsheet on the main screen keeps track of which areas you've viewed, how long you spent there and how many times you have visited each section.

Within each section is a step-by-step explanation for common computer terminology, such as bits and bytes. It is extremely informative for those who don't already know and provides a refresher for those who do. You can take your time reading through each section; simply clicking the arrow will take you on to the next bit of information, and go back as many times as you need – extremely handy when it comes to revising.

When you've completed each section you can take a mock examination, which lasts about 15 minutes and covers about 60 questions from all sections. For pricing information on tests contact your local information centre, details of which are available on the CD.

To install:

98 Me 2000 XP

ECDL Modules 1&2
ECDL Modules 1&2 should autorun from the CD menu. If not, go to Start, Run. Type d:\ecd\launcher.exe (where D is the letter of your CD-ROM drive).

System requirements
Pentium II; Windows 98/Me/2000/XP; 8MB RAM; 20MB hard disk space; QuickTime 5.05 or higher; Internet Explorer 5.5

1 You can view really basic information such as computer applications

Computers, like the one you are using, range in size from room-sized mainframes to hand-held computers like a Palm Pilot.

You will also find computers in household appliances, like microwave ovens and DVD players, in cars that use electronic fuel systems and in toys, such as Game Boys and Nintendo consoles.

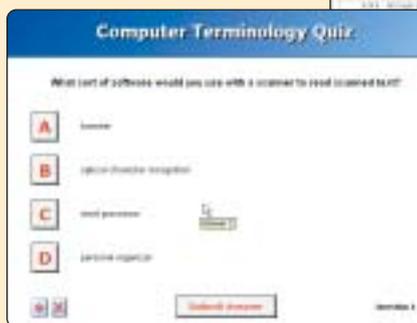

Click the button to continue.

2 Each of the seven subject areas, including basic concepts of IT, word processing and information and communication, offers fully illustrated step-by-step tips

3 As you complete sections, ECDL records your progress in a spreadsheet

Module	Completed	Time Spent	Number of Views
1.1 Introduction to Information Technology	Yes	15:00	1

Enter our surveys to win!

Editorial survey

Fill in our editorial survey and a Palm Zire personal digital assistant could be yours. There are no right or wrong answers – simply tell us what you think about this month's issue for a chance to win. Your answers will help us improve *PC Advisor*.

worth
£88.98

How to enter

1. Log on to www.pcadvisor.co.uk/editsurvey or click the link from the CD or DVD.
2. Answer the questions – this should take about 15 mins – then fill in your name, address and email for entry in our draw.
 - Survey closes 26 June 03. Draw subject to usual competition terms and conditions (see page 12 for details).

Customer Satisfaction Survey

Anyone who's bought a PC knows that choosing the right machine for your needs is only part of the equation. The issue of decent aftersales support is often overlooked by the enthusiastic bargain hunter. As part of our ongoing campaign to pinpoint problems with manufacturers' delivery and aftersales support, we want to hear about your experiences. Fill in our Customer Satisfaction Survey 2003 and tell us whether suppliers have fulfilled your expectations. We'll feed that data back to other readers, providing in-depth reports on how vendors' perform once they've got your cash.

- Survey closes 20 June 03. Draw subject to usual competition terms and conditions (see page 12).

£190

CyberScrub Basic 3.0

FULL PROGRAM

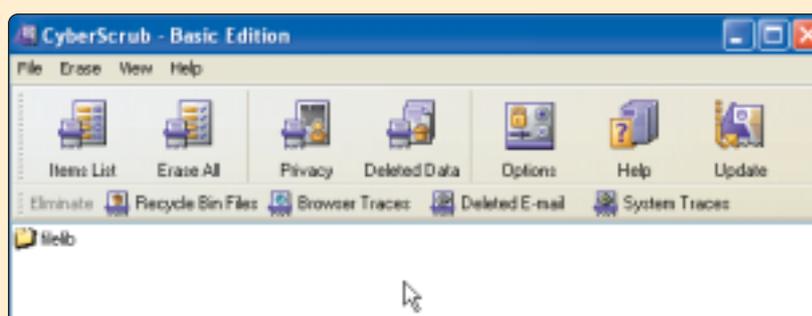

1 CyberScrub gives you two easy options for locating and deleting files. Either method works perfectly well, but the more complex option allows you to search for files which is often easier than searching through your PC yourself

2 To find files click on the Erase icon at the top of the screen and then click Item List and go down to the Search for document option

3 Simply type in the name or type of file you are hunting for and let the software work its magic

4 Once you have highlighted the files you want deleted simply drop and drag them into the main box. Make sure you have only selected the files you want to get rid of and that they all appear correctly in the box

5 Finally click on the Erase All button and the folders will vanish without trace before your eyes. If you change your mind, press the Cancel button

If you want to clean up files your PC but can't be bothered to trawl through all of your folders to weed out the documents in question then CyberScrub Basic 3.0 is for you. This data erasing tool makes it easy to delete unwanted or sensitive files, folders, emails and cookies at the touch of a button.

CyberScrub allows you to keep whatever you store on your PC private and importantly lets you clear out all those old documents lurking on your hard drive taking up valuable space. Just be sure to check and double-check that you really do want to rid yourself of the files specified for deletion as once they're gone there's no getting them back.

CyberScrub wipes a file's content beyond recovery, scrambles its name and then removes it from the system. One of the most important functions of CyberScrub, as its name suggests, is removing internet history.

This means, for example, that people who are using P2P sites, which often contain spyware, are able to delete records of the pages they have visited so that no one can follow their web trail. The software is fully integrated into Windows allowing files to be dragged from Explorer (and Windows alike) and deleted at the click of a button.

Although such delete functionality already exists within Explorer, CyberScrub lets you drop all your files – whether internet- or Windows-related – into one box to delete, saving you the bother of switching between your browser and operating system.

To install:

95 98 Me 2000 NT XP

CyberScrub Basic 3.0
CyberScrub 3.0 should autorun from the CD menu. If not, go to Start, Run. Type d:\cyber\cybbasic0999.exe (where D is the letter of your CD-ROM drive).

System requirements
Pentium PC; Windows 95/98/NT/Me/2000/XP

Essential utilities toolkit

SOFTWARE SPECIAL

July's DVD packs over 170 programs providing the missing pieces to the jigsaw puzzle that is Windows, plugging gaps and addressing the shortcomings of Microsoft's operating system. Plus there's more than 70 indispensable full programs, games demos and trials

Load up our software special DVD for access to over 250 programs, including more than 170 Windows utilities. Here we list most of the essentials with a brief description of what they do to whet your appetite.

- **Audio** A great selection of utilities to help you edit or tag MP3s – you can even perform some bad pub singing with Dart's Karaoke Studio. Record streaming audio on your PC with Total Recorder or convert text to voice and MP3 with Text Aloud. Also find the ever-popular Winamp player.
- **CD and DVD** Excellent utilities for burning data to disc. Demo Ahead's brilliant Nero 5.5 and get your copy to autorun as soon as it's loaded with Visual AutoRun 1.7.

- **Graphics editors** Eleven applications to help you brush up your digital photo and web creation skills. You can create thumbnails, convert files and even get your hands on a professional 3D modelling kit with CyberMotion 8.0.

There's more thumbnail and web creation from Xara, which helps make building a website as easy as possible. Bored with 2D websites? Then use Ulead's Cool 3D to create high-impact animated titles and graphics.

- **Graphics viewers** Organise photos, edit flash movies or even retouch portraits. We've also included the time-saving Context View Pro 1.5 so you can preview images, animation, video and audio files without having to open a separate application.

Create beautiful photomosaic's with Mosaic Creator 2.6, restore old photos using Focus Magic 2.0 and customise your desktop with the best creator/editor shareware tool, MicroAngelo 5.57. There are also great packages to meet your digital photography needs, let you send snapshots instantly and get a multimedia viewer that supports 400 file formats.

- **Office tools** Everything you need to improve productivity in the office. From

← MP3 Surgeon Lite lets you edit, trim and repair your MP3s

↓ Let Mosaic Creator help you generate inspiring mosaics from your own photos

← Access hundreds of powerful tweaks and hidden registry settings with Tweak Manager and unleash the real power of Windows

organising your most frequently used files with BrainJoe to lightning-fast hard drive searches with Sleuthhound.

- **Online browsers** Nine applications to make browsing simple: put tabs on pages for easier searching, bookmark internet favourites with Linkman, or axe cookies and caches using Complete Clean Up.

- **Download helpers** Download 500 files simultaneously with Mass Downloader or improve online searching with Copernicus Basic Agent.

- **Email clients** Spam filters, plus free mail and email notification.
- **HTML editors** Web code authoring packages and useful instant messaging

To install:

To load the *PC Advisor* software interface, go to **Start, Run**. Then type **d:\master.exe** (where D is the letter of your DVD drive). Or go to **Start, Programs, Windows Explorer** to locate the relevant EXE file. Follow the onscreen instructions to install the program you want. Please read the licence and any Read Me files for any special instructions that may relate to the individual products.

If you are unable to access the DVD contents or experience problems with the disc, call our DVD helpline on 0870 739 7630.

services are just a couple of utilities in this line up. Identify the location of an IP address with Visual Route 7.1, use Yonc to troubleshoot dialup connections and monitor network traffic with Online Eye Pro.

- Security Protect your PC with AdAware, Anti Trojan, Shy File and much more.
- Backup Effective ways to make sure you've saved all your important data.
- Compression Over 10 great packages to help squeeze your data into more archive- and email-friendly sizes.
- Desktop and hard disk utilities Make your desktop a better place to work and manage your hard disk more effectively.
- System and tuning utilities Check out how powerful your PC is using some PC Mark tests and disable programs quickly with Startup Manager 1.0. Plus get the very best from your PC and make it run faster by tweaking it to perfection with any one of our eight tuning utilities.
- Video utilities Video conferencing tools by C U See Me, a DivX for films using DivX codecs, video-editing apps, plus Movie Collector for organising films on your PC.

Games domain

DEMOS

- Devastation Take up arms against the corrupt mega-corporations that are ruling a ravaged Earth in the year 2075.
- Praetorians Become a Gladiator in ancient Rome and fight to the death.
- Raven Shield Command the deadly efficient Rainbow unit and wage war against terrorism.
- WarBlade Fight off aliens and save the world in this classic shoot-'em-up.
- Indiana Jones Action adventure Lara-Croft style with quite possibly the hardest archaeologist in the world. Is that a whip in your pocket?
- Splinter Cell Take the role of Sam Fisher in the best stealth and stalk title ever released.
- X-Plane 6.70 Take to the skies and control some of the worlds best planes in this popular flight sim.
- Championship Manager 4 The next generation of football management

↑ Indiana goes for the head chop

games, offering more players, leagues and competitions than any other title

- Player Manager 2003 Control a footie team and watch the games played out via a 3D engine.
- Frontline Attack Command World War Two troops in the theatre of Europe with this engrossing real time strategy.

How to buy the DVD-ROM and subscribe

DVD-ROM cover disc for just £2.99

There's no need to buy a second copy of *PC Advisor* to enjoy all the extras on the DVD edition. Buy the July 03 DVD-ROM separately for just £2.99, including postage and packaging (UK only). To order a copy using your credit card call 01795 414 939, complete this coupon or visit us online at www.pcadvisor.co.uk/dvd.

DVD-ROM upgrade

If you're an existing *PC Advisor* subscriber, you can upgrade to the DVD edition. Either:

1. call 01795 414 939 for a personal quotation, or
2. email your personal quotation request with your name and address details to pcadvisorvd@galleon.co.uk.

Subscription offer

Subscribe to the *PC Advisor* DVD edition for £19.99, saving more than 44 percent on the normal price. Call 01795 414 939, quoting PCADVD95, complete this coupon or go to www.pcadvisor.co.uk/subscribeNOW.
