Take time out to install it and you'll have an immediate reference source for all your French vocabulary needs.

We've a real treat in store on disc two. Fans of our sister publication *Tips & Tricks* will be pleased to hear they can now complete their collection with issue one. This edition is now out of print but we've put it into digital format which has the bonus that you can search the magazine for that all-important tip.

And of course we haven't forgotten to include the selection of essential utilities that *Tips & Tricks* is famous for. If the editorial recommends an application, you'll no doubt find we've shoehorned it – or a link to it – on to the disc.

cover disc: DVD

History, especially British history, with its succession of thrilling illuminations, should be as all her most accomplished narrators have promised, not just instruction but pleasure," says Simon Schama. In his epic series into Britain's past, Schama paints a brilliant portrait of the life of our people and asks questions of compelling importance for our future as well as our past.

This month, *PC Advisor* presents the respected historian's summary of one of the most exciting but difficult periods of our national history. The Black Death swept across the land, bringing the terror of an uncontrolled disease and decimating the population. Despite current threats such as Sars, it's difficult to imagine what it must have been like living in such conditions.

As well as exploring the causes of the Black Death, this DVD offers a fascinating look at its effects. In its wake, the Plague brought bleak but pivotal power struggles. Survivors were keen to hold on to what they had left, while a massive population reduction meant serfs had new bargaining power. Led by Wat Tyler they protested against heavy taxes that threatened to rob them of their improved status. ■

↑ The Plague promised a gruesome death for those who caught it

↖ Burial was quick in an attempt to minimise the disease's spread

↑ An ageing Edward III could do little more than watch as his people died
