134 Workshop

See no evil, hear no evil
Unless you bought your system for its graphics and sound capabilities, chances are it's not giving you its best. We show you how it could.

88 FEATURES

88 Best software for 2004

We bring you a roundup of the best software reviewed over the past year. You name it - from multimedia and backup tools to business and publishing packages - we've seen it. Get yourself equipped.

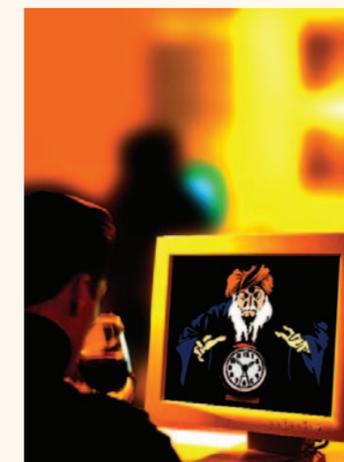

108 What Wi-Fi?

Not since the boom of cordless phone handsets has wireless connectivity been so sought after. But how do you know which equipment is going to be right for you? Follow our guide and get rid of those wires.

142 Workshop Documents that do more

We show you the art of repurposing - taking your paper documents and redesigning them for the web, e-books and multimedia.

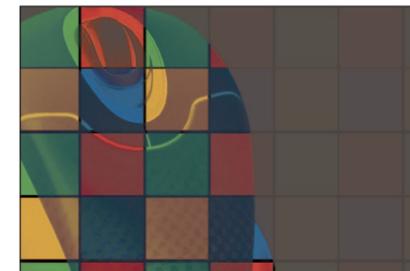

96 Work faster, not harder

Get much more from your working day. Our experts talk you through their timesaving tricks and shortcuts, showing you how to get the most out of Windows, Microsoft Office and your hardware.

110 Wrong side of the track

A trip to the dogs is great fun for us punters but every year thousands of greyhounds are abandoned or destroyed. Meet Lisa, who used the internet to set up a rescue centre for these amazing animals. Read a heartwarming IT success story.

148 Helpline

Our experts tackle your PC problems and offer solutions.

- 150 Windows
- 154 Internet
- 158 Security
- 163 Applications

102 Reality check

Remember all that virtual-reality hype in the 1980s? What happened to this new and exciting piece of technology? We go back in time, take a look at its history and find out what virtual reality is doing today.

204 TOP 10 CHARTS
