

Cover disc

Your data is precious and we'll help you keep it that way. Whether you're faced with an irritating pop-up or a virus attack, there's something on this month's CD to counter it. And for those of you who bought the DVD edition, we've got the tools to help you improve your vocabulary and keep your employees in line

How to load the programs on the CD and DVD

1 Insert the disc into your CD-ROM or DVD-ROM drive. The *PC Advisor* main menu screen should appear after a few seconds. If not, type d:\master.exe (where D is the letter of your CD or DVD drive).

2 Click Continue at the Welcome screen. Running along the top of the next screen you will see a set of tabs. Click on one of these to access the software in that section.

3 Once you have selected the tab relating to the section you want to view - say, Internet toolbox - choose the program that you want to install from the lefthand list. You will then see that package's details on the righthand side of the screen and a blue Install button. Click this to load up the program or select View to download a program from the relevant website.

4 If you experience any problems, refer to the manual instructions from page 159 or see the related Read Me file. Alternatively, use Windows Explorer to find the program executable you require and double-click to launch it. If the program still won't load visit our website or call the helpline. Please remember that *PC Advisor* can only assist with installation difficulties.

Problems with the cover disc?

Visit www.pcadvisor.co.uk or call 0870 739 7630

If you've missed any of our DVDs, order them for £2.99 each inc p&p. Call 01795 414 939 to order with your credit card or buy online at www.pcadvisor.co.uk/dvd (UK only, subject to availability)

MadeSafe Secure Backup

MadeSafe is a range of PC privacy and security products designed to protect both your family and business. Even if you have antivirus software and a personal firewall on your system, these are not always enough to protect your data from unwanted external influences. So don't take chances with your sensitive files or treasured pictures of your loved ones, install MadeSafe now and make sure that you've got all your bases covered.

Britannica Quizmaster

If there's ever been a publication that represented comprehensive, accurate and relevant information (other than *PC Advisor*, of course), it's the *Encyclopædia Britannica*. Now you get to test your mettle against this worthy tome with the Britannica Quizmaster. Choose a category from literature, history, sport, science or geography, or take pot luck with the Kaleidoscope collection. If you find the going gets too tough, you can always choose an easier setting - but where's the fun in that?

→ MadeSafe is a range of PC privacy and security tools that provides total protection for your PC

Panda Platinum Internet Security

It's easy to lose count of just how many ways your PC can be compromised these days - the number of Windows security updates coming out of Redmond is proof enough that things could be locked down more tightly. If you're concerned that your computer isn't up to the task of defending itself, then Platinum Internet Security will give you all the tools you need to keep it safe. Includes antivirus updates for 30 days.

Cover disc: DVD

Vizual Personnel Manager

While it can't stop Doreen in accounts from playing Solitaire instead of processing invoices, Vizual's Personnel Manager could prove an invaluable tool for anyone with people on the payroll. Store their details, monitor their workflow, and generally keep on top of any personnel issues before they start to get out of control.

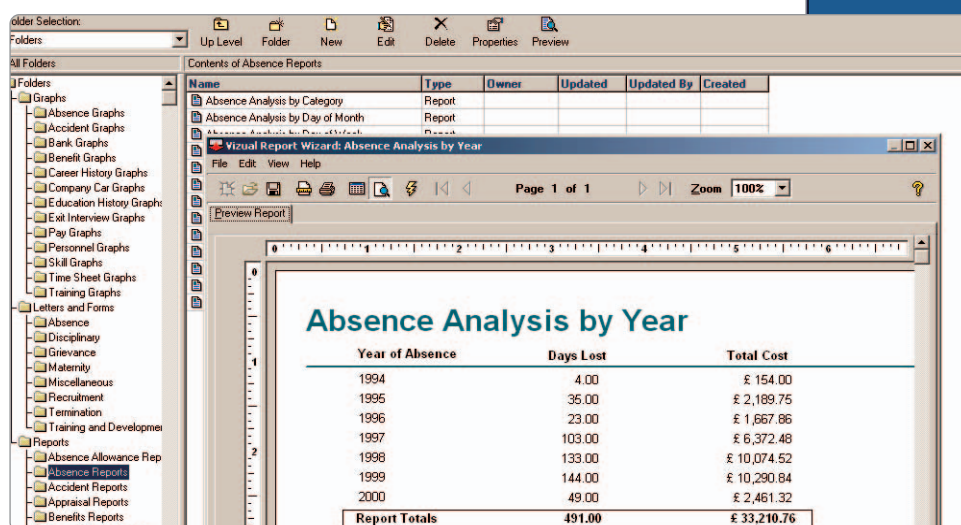

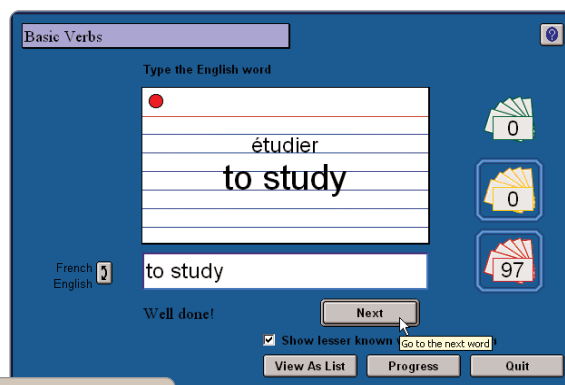

Plus, it'll cut down on paperwork - always a good thing - and will help make sure you're up to speed with employee law. This version is limited to five employee records.

Transparent Language Vocabulary Master

According to the *Reader's Digest*, it pays to enrich your word power. As a publishing company we'd have to agree, which is why we're giving you Transparent Language's Vocabulary Master on this month's disc. With 13 languages and 40 categories to choose from, you'll be expanding your lexicographical proficiency in next to no time. Ideal whether you're learning a new language or simply brushing up on your holiday French. You'll find bonus city tour content thrown in for good measure too.

Keep on top of personnel issues with Vizual Personnel Manager...

...or boost your word power with Transparent Language Vocabulary Master

Operation Overkill

When you've sorted out your system's security, topped up on your general knowledge, updated your language skills and generally improved yourself, it's time you took a break. So with this in mind, we've thrown in our usual slew of games and demos, as well as Operation Overkill. Fly your assault helicopter behind enemy lines, and take advantage of the weaponry at your disposal to eliminate tanks, artillery, submarines, power stations and battleships. Just make sure you put your seatbelt on first. ☒

The DVD edition has everything on the CD plus:
