Whether you're after clip art to jazz up a dull-looking document, want to take time out and explore some of the UK's most beautiful scenery or learn more about astronomy, there's something on our cover disc for you. Plus, if you invest in the DVD edition of *PC Advisor* then you're in for a treat with *UFO Diaries: First Encounters*, the third instalment of our conspiracy theory videos

## The easy way to load the programs

- 1** Insert the disc into your CD-ROM drive. The *PC Advisor* main menu screen should appear after a few seconds.
- 2** Click Continue at the Welcome screen. Running along the top of the next screen are the tabs which you click on to access the various sections.
- 3** Click on the section you want to view and then select the program you want to install. You will then see an Install button; click this to load up the program.
- 4** If you experience any problems, refer to the manual instructions given or see the Read Me file. If the program still won't load visit our website or call the helpline. Please remember that *PC Advisor* can only assist with installation problems. For DVD instructions see page 280.

## Problems with the cover disc?

We normally try to cram as many full programs and useful applications as we can on to one cover disc for you, but this month we've gone down a different route: there's not one, but two cover discs, so you've got even more programs, utilities and shareware to experiment with.

The first disc has more royalty-free clip art and graphics for your website than you'll know what to do with – 100,000 Clipart & Web Images will satisfy your creative urges, whether you want to make posters, newsletters or a website. On the second disc you'll find a guided tour of North Wales, an astronomy package for the budding stargazers among you and an adaptable accounting program to help you with your finances.

Eye2Eye North Wales will help you discover the beauty of this picturesque part of the UK, *Starry Night Beginner* tells you all about the stars in the night sky and *TurboCash 3.6i* will sort out your cashflow issues in no time at all. On top of this little lot there's also a whole host of demo and trial programs for you to experiment with and enjoy.

## DVD extras

You're in for a few extra treats if you've bought the DVD issue this month as you'll get everything that's on the two CD-ROMs plus a whole lot more. In the Games domain we've got demos of many of the latest games on the market, some of which have been reviewed in the Lifestyle section this month. The centrepiece of the DVD is once again our exclusive video and this month we have brought you a third instalment of the *UFO Diaries*. ■

## Cover disc liability

The CD-ROM and DVD on the cover of *PC Advisor* are supplied as is, subject to the following terms and conditions. The CD-ROM and DVD are provided as free items to readers of *PC Advisor* for their personal use, and may not be resold or copied for distribution. The publisher shall have no liability without limitation for any losses or damage arising from using these software programs or taking advice from the cover disc helpline, including any loss of profit, damage to equipment or data, interruption of business, or any other damage, direct or accidental.

It is recommended that you back up any programs and data on your hard disk before installing this software. # cover disc: CD

With two cover discs there's an even bigger feast of software and utilities than usual this month. The first disc features 100,000 Clipart & Web Images, while three more full programs are on disc two: TurboCash 3.6i, Starry Night Beginner and Eye2Eye North Wales.

## 100,000 Clipart & Web Images

This great program is so huge it's got a whole disc for itself: there's 60,000 clip art images and 40,000 web graphics in here. No matter what artwork you want, we guarantee you'll find something that fits the bill. So whether you need to create a newsletter, a party invitation or a poster, there's no better way to make it eye-catching and interesting than to use some of GSP's great artwork. If you're setting up a website then be sure to check out the selection of internet graphics on offer.

## Eye2Eye North Wales

From Snowdonia to Cardigan there's endless stunning scenery, interesting architecture and places of interest in North Wales. If you don't live near the region and fancy exploring it from the comfort of your own chair then what better way to do it than with this great Eye2Eye program?

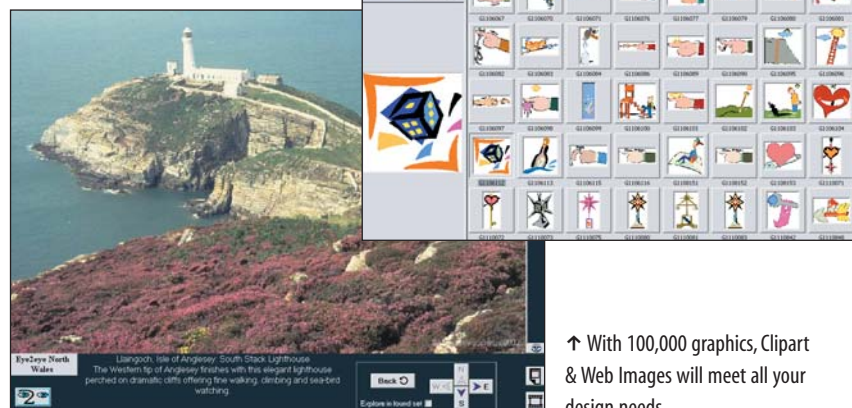

## Starry Night Beginner

If you're a budding astronomer, Starry Night Beginner is perfect for you. Even if you don't know the first thing about the planets and stars, you'll have all the knowledge at your fingertips. Hover your cursor over the constellation you wish to identify and its name will appear. You can also print customised star charts.

## TurboCash 3.6i

This versatile accounting program keeps track of your finances at home and work. Use the creation wizards to make a customised set of books, so whether you're keeping an eye on personal cashflow or your business' running costs, TurboCash will help you stay in the black. ■

# cover disc: DVD

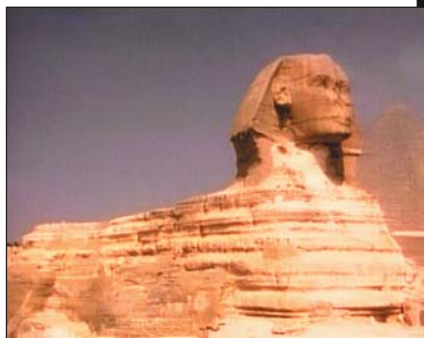

If you've bought the DVD edition of *PC Advisor* then you get everything that is on the two cover discs and loads more besides. There's a host of trial programs and game demos (including our exclusive full program, Frankie's Animal Adventures Karaoke) not forgetting our exclusive video, UFO Diaries: First Encounters, which should prove popular among conspiracy theorists.

## UFO Diaries: First Encounters

If you enjoyed the first two videos then you'll love First Encounters, the third instalment of UFO Diaries. Whether you believe the theories or not we're sure this video will make compelling viewing.

- **The First UFOs** The first official UFO report was made just after the end of WWII, but there are records of sightings as far back as the 16th century. Discover the links

→↓ Where exactly did the Egyptians get the idea for a cat with a beautiful woman's head?

between alien beings and the history of mankind in this fascinating chapter.

- **Pyramids – the Alien Connection** Did the Egyptians, more than 2,500 years before the birth of Christ, build the Great Pyramid – a structure with precision and complexity

that can't be matched today, even with our modern technology?

- **Cydonia – the Mars Connection** Do the haunting face and pyramids discovered on Mars suggest that mankind is on the verge of proof that there is intelligent life on other planets? Is someone preventing us from learning the truth about these remarkable figures? Or are the satellite pictures just a trick of light and shadow, fooling scientists and experts? ■
