### 88 Technofile: personal digital assistants

There's so much choice in the handheld market nowadays that it's hard to work out which features you require. Read our guide to PDA technology and you'll be an expert in no time.

### 94 Reader's choice: budget PC for video editing

This month's reader required a PC that could handle his video-editing demands, so we got two manufacturers to create a system on demand.

### 97 Top 10 charts

## features

### 150 Trouble-free computing

The consequences of data loss can be catastrophic. We discuss the merits of online data recovery firms and show you how to prevent disaster occurring in the first place.

### 158 Signs of improvement

Due to economic uncertainty, many small firms are making do with upgrades rather than renewing their IT equipment. We take a look at the history of the PC market and ask whether things can ever be the same.

### 164 40 great online freebies

The web is home to a huge number of useful computing applications – and they can be yours without you paying a penny. Here's a round-up of some of the best online freebies.

## workshop

### 178 Build your own PC, part III

Having completed the physical assembly of our PCs, in this final part we power them up for the first time, install Windows and ensure everything runs smoothly.

### 184 Photoshop Elements tips & tricks

Armed with the inexpensive Photoshop Elements, put your PC to work by correcting, retouching, enhancing and being generally creative with your images.

ON THE COVER

## helpline
