ON THE COVER DISC

The easy way to load the programs

1 Insert the disc into your CD-ROM drive. The *PC Advisor* main menu screen should appear after a few seconds.

2 Click on the name of the program you want to load and choose the installation option you require. The program should automatically run from the Start menu.

3 If you experience any problems, refer to the instructions at the end of the article or see the related Read Me file. If the program still won't load visit our website or call the helpline. Please remember that *PC Advisor* can only assist with installation problems. For DVD instructions see page 218.

We have a treat for those of you who are into DTP (desktop publishing), with a full version of Greenstreet Publisher 3.12. There is also a trial version of Publisher 4.2 and a PDF (portable document format) tutorial on how to use it. So whether you are a novice or an expert when it comes to DTP, you'll be creating eye-catching posters, invitations and newsletters in no time at all.

You'll also find a copy of Portfolio 5.0 Desktop Edition from Extensis. This full program allows you to create a searchable catalogue of your digital images, which means you save time and energy when searching for photos, icons and more. And to help you manage your dwindling disk space, we've included the utility Tree Directory Sizer.

Brand Awareness 2002 Survey

It's that time of year again when we ask you to tell us all about your experiences – good or bad – of various IT brands. You can access the survey from the CD-ROM, and your responses provide us with invaluable data that is fed back to the manufacturers in question. Of course, we don't expect you to help us for nothing – there's thousands of pounds worth of prizes to be won if you complete the Brand Awareness survey.

DVD goodies

As ever, the DVD contains everything that the CD-ROM has, with a little extra thrown in for good measure. As well as two extra full programs and loads of demos of recently released games, we have brought you our exclusive video footage. This month, we let you discover more about the British armed forces with our fascinating and informative film. ■

Take the time to load up our cover disc and you'll discover some superb stuff. There are three full programs, plus a host of trial versions, utilities and other useful software. Whether you need to know how effectively you are using your disk space, want to make a searchable catalogue of your digital photos or create some flashy-looking documents, there's sure to be something to catch your eye here.

Greenstreet Publisher 3.12
Publisher 3.12, courtesy of Greenstreet, is an easy-to-use DTP (desktop publishing) package that will have you occupied for hours. If you need to create a newsletter, some business or greetings cards, or just want to make a memo stand out from the crowd, then this fantastic full program will help you. Achieve brilliant, professional-looking results in no time at all with Publisher 3.12.

You can read more about this program in our DTP feature, *Designer goods* (see page 148). Plus, there's our PDF (portable digital format) guide on the cover disc, which leads you through the program step by step.

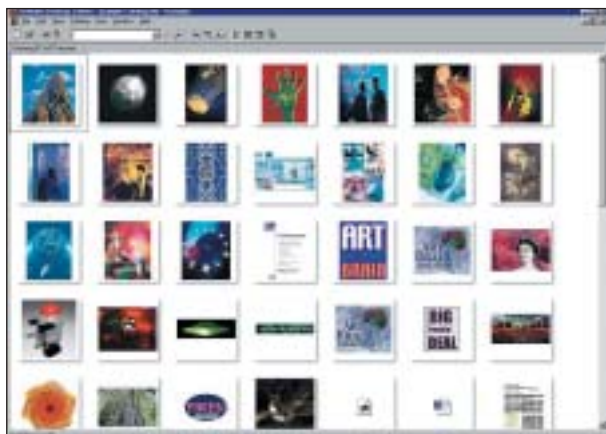

↑ Tree Directory Sizer will help you manage and control your system's hard disk space

We've also included a trial version of Publisher 4.2, the latest version of this comprehensive package.

Portfolio 5.0 Desktop Edition
This incredibly handy utility is ideal if you hate spending hours searching for a favourite snap or digital image. Portfolio 5.0 lets you create a searchable catalogue of your digital photographs and images. You'll find making a catalogue is a doddle and, as the catalogue itself only requires small thumbnail images, it won't make your PC wheeze under the strain when you search through it.

↑ Keep your digital images, including photographs, icons and pictures, in an easy-to-find catalogue thanks to Portfolio 5.0

Tree Directory Sizer 5.0
If you are not entirely sure where or how you are using your disk space, then this is the utility for you. You can use Tree Directory Sizer to efficiently manage your system's hard drive. Look out for the trial version of Disk Triage, which analyses, plans and manages your disk space more effectively as well. ■

cover disc: DVD

A s well as two additional full programs – Fractal PC and NotePager 32 – the DVD edition of *PC Advisor* offers its readers extra trial versions of handy utilities, the Games domain (containing demos of some of the best games out on the market at the moment), and our exclusive video.

Story of the Forces

Our DVD video is split into three chapters – the RAF, army and navy. This informative and action-packed video footage will keep you on the edge of your seat as it examines the role of the modern armed forces. It also takes a look at some memorable past events.

• Royal Air Force The RAF is an increasingly important part of modern warfare as conflicts are often resolved in, or from, the air. In this chapter you'll discover interesting facts about the EuroFighter project and recent conflicts, as well as taking a look back at the Berlin Airlift.

→ Take a look at the interesting footage of the Royal Navy and discover more about submarines and flying tomahawk missiles

← Travel to Kosovo and watch the modern army in action

• Army The second chapter looks at the role of the army as a peace-keeping rather than fighting force, but also casts an eye back to the Falklands conflict of 1982. Look out for an interesting piece on the Challenger 2 tank as well.

• Royal Navy In the final chapter we look at the navy, specifically at submarines. Submarines are often used as missile launching bases, so you're also treated to some great footage of flying tomahawk missiles. ■
