# customer satisfaction survey

Once more we want to pick your brains about the best and the rest in the world of customer support, and we're willing to make it worth your while. Just tell us about your experiences with aftersales support and you could win a Canon PowerShot G2 digital camera

Anyone who's bought a PC knows that choosing the right machine for your needs is only part of the equation. The issue of decent aftersales support is often overlooked by the enthusiastic bargain hunter. So as part of our ongoing campaign to pinpoint problems with manufacturers' delivery and aftersales support, we want to hear about your PC buying experiences. If you tell us whether suppliers have fulfilled your expectations, we can feed that information back to other readers, providing in-depth reports on how vendors' perform once they've got your cash.

The survey is on our website, and takes about 30 minutes to complete. It asks you about your PC's spec and where you bought it, if there were any delivery problems, how they were solved, what type of warranty you have and whether it's been honoured by the PC's maker. Above all, we want to know if you are a satisfied customer and whether you'd buy from that vendor again.

To complete the survey, simply point your browser at [www.pcadvisor.co.uk/survey](http://www.pcadvisor.co.uk/survey) or click the link on the cover disc to be taken straight to the web page.

← The survey starts with questions about the PC you currently own. Choose your brand from the list by clicking the radio button to the left of the relevant vendor

→ Some longer questions require you to scroll to the bottom of the page to access the Continue button so that you can move on to the next question

← Where none of the options given fits your situation, type your answer in the box. If you don't make a choice or type an answer, you won't be able to continue

## Win a Canon PowerShot G2

In recognition of the time taken to fill in the questionnaire, and because we both need and value your comments, all completed surveys will be entered into our prize draw for a Canon PowerShot G2. This award-winning 4Mp (megapixel) digital camera has been flying high in our Professional digital cameras chart for five months now. In addition to automatic exposure mode, the PowerShot offers a choice of aperture, shutter speed priority or full manual exposure, making it a great option for the serious photographer.

With a high-resolution CCD (charge-coupled device) and 3x optical zoom lens, the G2 has all the essentials for taking top-notch pics up to a maximum resolution of 2,271x1,047dpi (dots per inch). Shots are stored on a removable 32MB CompactFlash card.

Worth £748 inc VAT, the PowerShot G2 is a powerful tool for professional and advanced amateur photographers who want a very high-resolution digital camera. And it could be yours, so get online and complete the survey now. Competition closes Friday 21 June 2002. ■

**Rules and conditions of entry** Answer all the questions on the PC Advisor Customer Satisfaction Survey, remembering to add your personal details. The judge's decision is final, no correspondence will be entered into and there is no cash alternative available for any of the prizes. Employees of IDG Communications and Canon and their relatives are not eligible for entry. IDG Communications cannot be held responsible in the unlikely event of the sponsor being unable to provide a prize. All prizes are offered subject to availability. All details subject to change without notice. All entrants must accept these conditions of entry and agree to abide by the rules. No purchase necessary; if you want to enter the competition, please write your name and address on the back of a postcard marked 'Customer Satisfaction Survey' and we will enter you for the prize draw regardless of whether you respond to the questionnaire.
