Two discs grace our cover this month, bringing you another bumper haul of exclusive full programs and shareware. From PC security and hard disk housekeeping to a massive atlas and almanac, there's packs of stuff to make use of, to say nothing of the DVD...

The easy way to load the programs

- 1 Insert the disc into your CD-ROM drive. The *PC Advisor* main menu screen should appear on your screen after a few seconds.
- 2 Click Continue at the Welcome screen. Running along the top of the next screen you will see a set of tabs, which you click on to access the various sections.
- 3 Click on the section you want to view and then select the program you want to install. You will then see an Install button; click this to load up the program.
- 4 If you experience any problems, refer to the manual instructions given or see the Read Me file. If the program still won't load visit our website or call the helpline. Please remember that *PC Advisor* can only assist with installation problems. For DVD instructions see page 216.

(UK only, subject to availability)

Once again we have got two cover discs for you this month, bringing you double the amount of great full programs, handy utilities and useful shareware. There are six full programs for you to get your teeth into this time around, and as they cover everything from geography to internet security there's something for everyone.

With CD-ROM number one we literally give you the world, in the form of 3D World Atlas & Almanac that does exactly what it says on the tin. There's also an image-viewing utility in Inzomia Viewer 1.69 and a program to help you fully uninstall software from your hard drive, even down to wiping the redundant folders from the Program Files directory.

The second CD-ROM contains MadeSafe Security Companion SE, a program to help you keep hackers at bay, Cybershop UK Off-Line Pro to get your business trading on the web and PentaZip 4.1, a file compression utility to help you store and distribute even the largest files in manageable chunks.

DVD extras

If you have invested in the DVD edition of *PC Advisor* this month then you will find that you've got all the great software that's on the two CD-ROMs, plus a couple of extras. Firstly, there's the Games domain, where you'll find demos of some of the newest and best games on the market; secondly there's an exclusive 44-minute video about the Tomb Raider phenomenon. Lock and load our video feature to get all the gory details of Lara Croft: Lethal and Loaded. ■

Cover disc liability

The CD-ROM and DVD on the cover of *PC Advisor* are supplied as is, subject to the following terms and conditions. The CD-ROM and DVD are provided as free items to readers of *PC Advisor* for their personal use, and may not be resold or copied for distribution. The publisher shall have no liability without limitation for any losses or damage arising from using these software programs or taking advice from the cover disc helpline, including any loss of profit, damage to equipment or data, interruption of business, or any other damage, direct or accidental.

It is recommended that you back up any programs and data on your hard disk before installing this software. Where telephone numbers are given for registration of cover disc software, these lines may only be valid for a limited period. *PC Advisor* cannot be held responsible for discontinued offers. This does not affect your statutory rights.

cover disc: CD

With six great full programs there's loads for you to do on the *PC Advisor* cover discs this month. Once you've loaded them up, here's what you can expect.

3D World Atlas & Almanac

Find out everything you could possibly need to know about any country in the world with the 3D World Atlas & Almanac. You'll find well presented, comprehensive information in this great program.

MadeSafe Security Companion SE

Keep your system safe from hackers and stay abreast of what your kids or your employees are doing on the internet with MadeSafe Security Companion SE.

Cybershop UK Off-Line Pro

If your company sells anything from pencils to diamonds and you're not on the web then you could be missing out on a lot of potential revenue. Let CybershopUK Off-Line help you to sell your goods online.

Ashampoo UnInstaller

When you delete software from your hard drive, wiping out every trace of it isn't as simple or automatic a process as you would think. Because not all data pertaining to a program is stored in the same place, your system can easily become clogged up with redundant files and folders. Ashampoo UnInstaller will help you wash that data right off your PC.

Inzomia Viewer 1.69

You can view several different image formats with the Inzomia Viewer and use it to magnify, zoom or rotate pictures to suit, pan through shots and much more.

PentaZip 4.1

Creating a compressed Zip archive couldn't be easier with PentaZip 4.1. Simply drag and drop all the files into the Zip area and the job is done. You can also create self-extracting Zip archives with this great program. ■

cover disc: DVD

Everything that made it on to the two *PC Advisor* CD-ROMs this month is also on the DVD for those of you who paid that little bit extra – plus you get some other great stuff to look through and play around with too. The Games domain has some trial and demo versions of some of the most popular games available to buy right now. But as ever we've made the exclusive video the centrepiece of the *PC Advisor* DVD and this month we'll be examining one of the most popular series of games of all time.

Exclusive video – Lara Croft: Lethal and Loaded

The world-renowned Tomb Raider games are, of course, based around ruthless heroine Lara Croft and in this great video you'll find out all about how the character was designed, created and put into the

games. The documentary includes interviews with the team of designers that brought Lara to life and made her the cultural icon she is today. With 44 minutes of footage there's plenty to get your teeth into so sit back and enjoy *Lara Croft: Lethal and Loaded*.

There are six chapters in this exclusive video and you'll be taken on a journey that

takes in the action-packed life and times of Lara Croft. Beginning with her conception and how the character and her image developed, the video explores her significance as a role model and fantasy figure for today's generation and finally asks the question: can Lara Croft go any further? ■
