snijlijn voor de
jewelcase

snijlijn voor een
gevouwen cd-hoesje

hier vouwen voor een
cd-hoesje

Er zijn twee manieren om de PC-Active cd-rom te voorzien van een hoesje.

1. Als gevouwen cd-hoesje. Hiervoor gebruikt u de zwarte stippellijn. Deze markeert de lijn waarlangs u moet snijden. Vervolgens vouwt u de randen naar binnen langs de lijn die wordt aangegeven door de gele pijlen. Plak vervolgens voor- en achterkant op elkaar.

2. U gebruikt dit vel als Jewel Case Inlay. De rode stippellijnen geven als vanouds de snijlijnen aan.
