family dynamics

view our extended hp iPAQ family offering

Meet the new family of achievers. They're advanced, friendly, and designed to make your life easier. Both business-minded and entertaining, the versatile HP iPAQ Pocket PC family invites you to take a closer look at both your world and theirs.

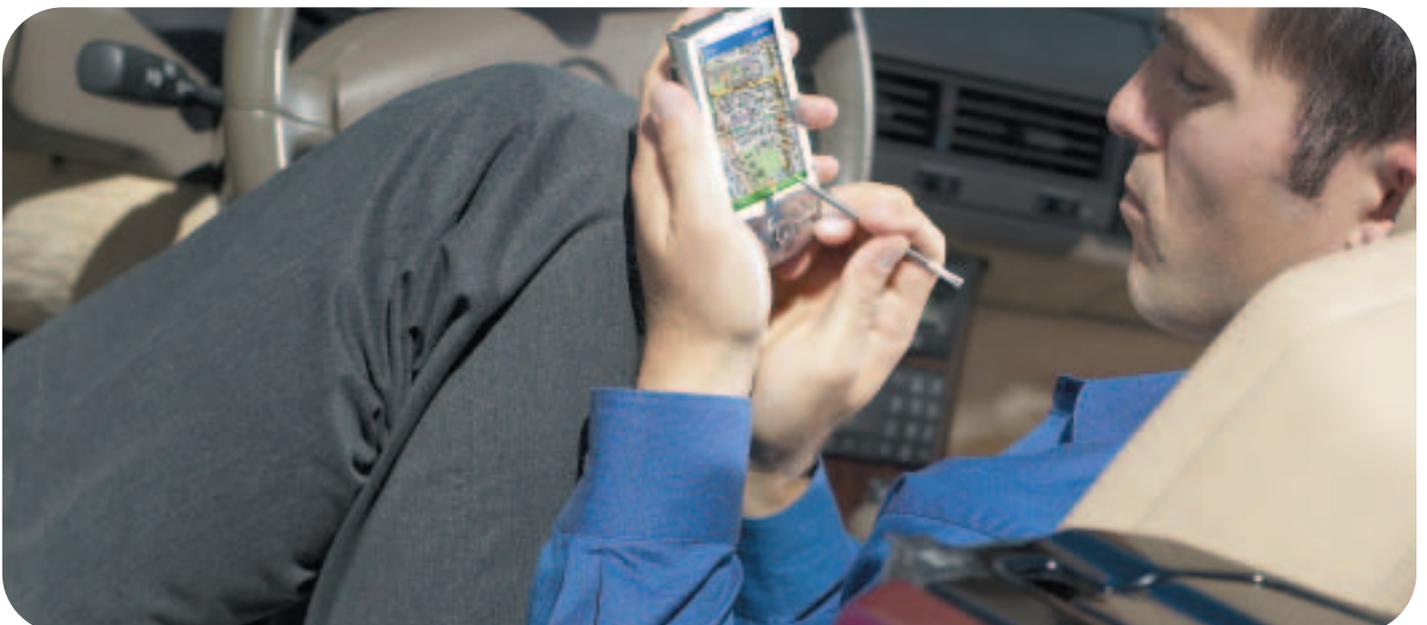

The HP iPAQ Pocket PC family is a series of dynamic wireless and non-wireless handheld PC devices suited for a variety of user needs. All types of executives and mobile workers can now utilise a pocket PC for personal and professional use, allowing them to work and communicate more freely.

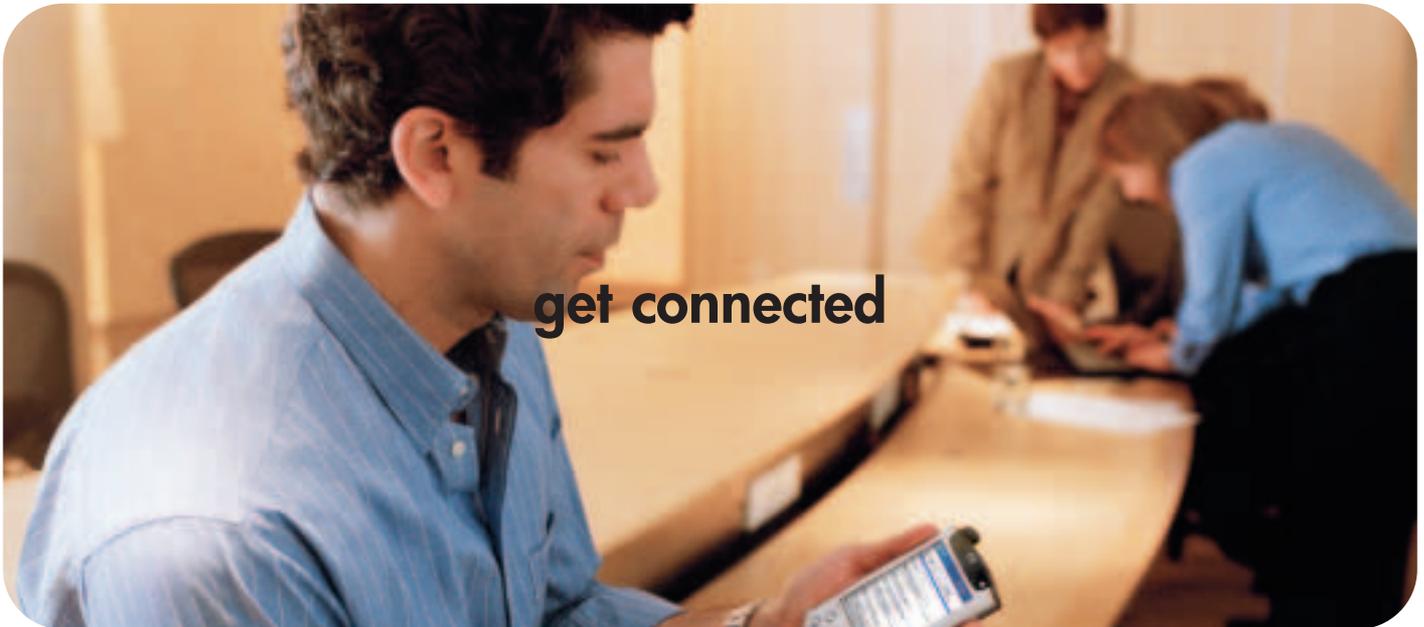

Don't leave your office behind when business takes you away from your desk. With an HP iPAQ Pocket PC you're always linked to the people and information you need – keeping you more productive and competitive during the day. See our full range of HP iPAQ Pocket PC devices and solutions, visit: <http://h40059.www4.hp.com/ipaq/solutions/wireless.html>

Every HP iPAQ Pocket PC device operates on the familiar Microsoft® Windows® Pocket PC platform, giving you the functionality of a notebook in the palm of your hand.

Whoever you are and whatever your demands, choose an HP iPAQ Pocket PC that's as versatile and indispensable as you are. Join the family!

HP PCs use genuine Microsoft® Windows®: www.microsoft.com/piracy/howtotell

get connected

hp iPAQ pocket PC h5400 series

When you move, the world moves with you. Stay connected with your peers and your contacts, and get information you and your enterprise rely on. The new HP iPAQ Pocket PC h5400 series mixes freedom and power to provide you with the applications and tools that let you take greater control of your business and life in general. With familiar Microsoft Windows applications and e-mail, intranet access and multimedia capabilities, the HP iPAQ Pocket PC h5400 series is more than a mobile device, it's a way of life.

- Safeguard your most sensitive data with a choice of enhanced security capabilities. Users are now able to secure their device through secure password settings or through a secure fingerprint logon, via the Integrated Biometric Fingerprint Reader. They are also able to secure the data on the device, through file encryption software via our F-Secure solution, as well as provide a secure VPN connection to their corporate network
- Get high-speed connectivity with integrated wireless LAN 802.11b. Set up is easy with the Configuration Wizard and stay in touch via Voice over IP, e-mail or through your company intranet
- With integrated Bluetooth™ technology, you can: Synchronise data, access your company's Wireless LAN system and communicate with other Bluetooth™ technology devices such as pen input devices, digital cameras and other PDAs
- Enjoy richer, crisper images and clear text, thanks to the transfective display. High contrast (70:1) and low power consumption mean that the information you need is always easy to read
- Go further, longer, and easier, with rechargeable 1250 mAh and 2500 mAh Lithium-polymer batteries (available as an optional accessory). Easy to install and replace

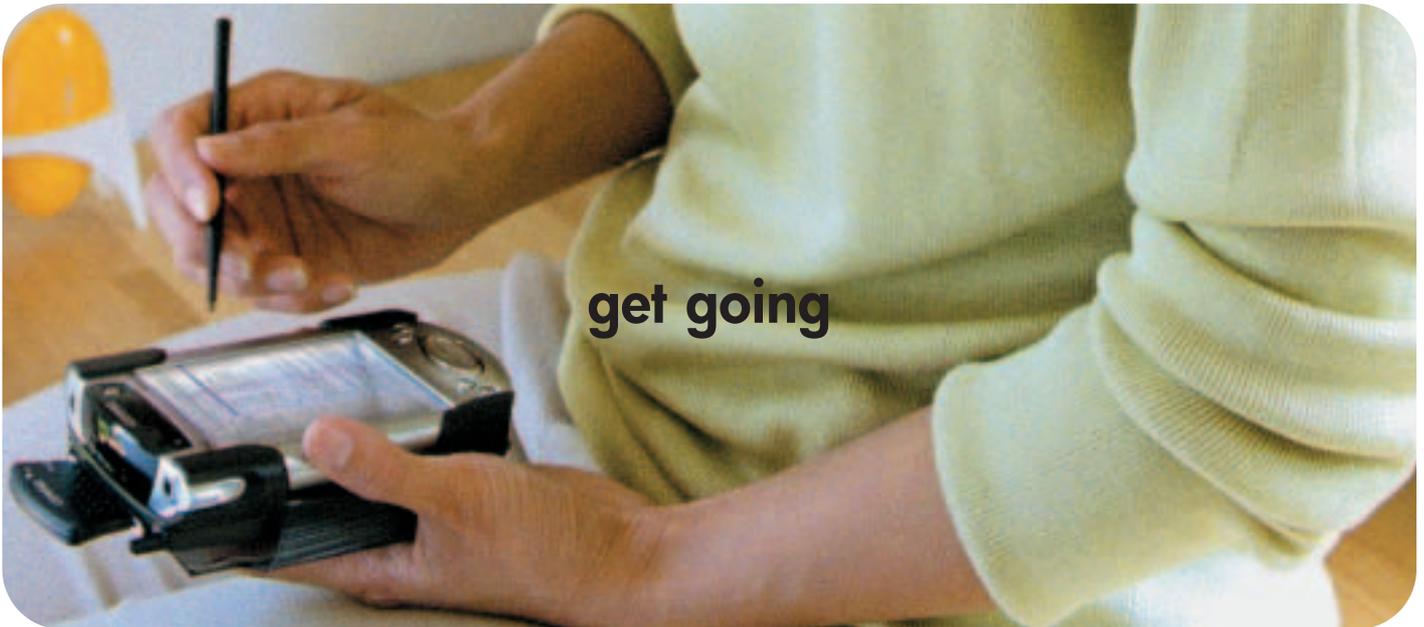

hp financial services

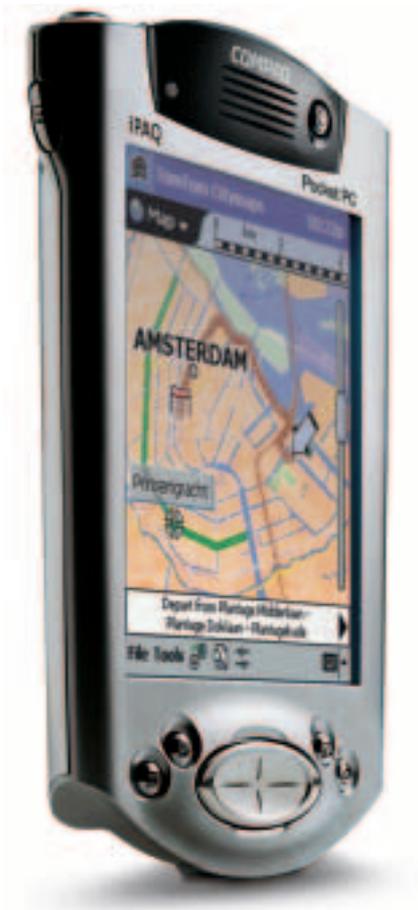

Budget constraints? We offer flexible, simple and total-cost-of-ownership-reducing leasing solutions – enabling you to focus your capital and resources on running and growing your business. By leasing, you have the ability to "pay as you grow" through low monthly payments. In addition, leasing frees up IT capital funds that can now be directed into other important investments for your business. And we help protect you against IT obsolescence and end-of-life technology equipment costs and concerns. All of this giving you more available resources to do more for your business.
