This is the last series of programs known as ZR FileWorks. This does not mean that it will be discontinued soon, just that it will settle down to a single name and format. As the included YROFZRFW.BMX (this program can read it, 98% compression, whoa) picture shows, it has been quite a year of changes for the program. If people would get with the program and register fairly promptly, there will be more versions to follow. Unlike other programs, this does not cut off after a certain date forcing you to register or not use the program anymore. I rely on people's honesty and good faith, so you can get an idea of how precarious my situation is.

Only those who have registered ZR FileWorks before (mostly those last summer) got me this far.

BTW, Happy New Year.
