SECTION V HEALTH HAZARD DATA

BB 173

Threshold Limited Value

Ketone: TWA: 750 ppm. Formalin: PEL: 0.75 ppm.

Effects of Overexposure

Borealene is a fixative, avoid all skin/eye contact!

INGESTION: Toxic! May cause irritation and numbing of mucosa. **EYES:** Direct contact may cause irritation. **INHALATION:** May produce short-term upper respiratory system irritation. **SKIN:** May cause tanning and irritation, defatting of skin, dermatitis.

Emergency and First Aid Procedures

INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention. **INGESTION:** If conscious, give one or two glasses of water, INDUCE VOMITING-having victim lean forward to reduce risk of aspiration. Call physician immediately. Never give anything by mouth to an unconscious person. **EYES:** Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get medical attention. **SKIN:** Flush thoroughly with water, then wash with mild soap and water. If irritation develops or persists, get medical attention.
