Effective Date April 16, 1999

SECTION V HEALTH HAZARD DATA

PP 480

Threshold Limited Value RTECS No. GB2940000 Toxicity data: orl-mus LD50: 180 mg/kg. TWA: 0.5 mgm⁻³ (as Chromium). OSHA (ceiling): 0.1 mg/m³ (CrO₃). (ACGIH 1992-93).

Effects of Overexposure **TARGET ORGANS AFFECTED:** Liver, kidneys, blood, respiratory system. **INHALATION:** Chromate dusts or mists can cause ulceration and perforation of nasal septum, as well as irritation and ulceration of the respiratory system. Overexposure to chromium compounds may cause lung cancer-risk. **INGESTION:** Can be harmful or fatal if swallowed. Toxic effects may not appear right away. A systemic poison; chromates are primarily toxic to the kidneys, liver, and gastrointestinal tract. Dusts and solutions can cause irritation. Contact with breaks in the skin can cause "chrome sores".

Emergency and First Aid Procedures **SKIN:** Wash with soap and flush with plenty of water without delay. Remove contaminated clothing and wash before reuse. **EYES:** Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get medical attention. **INGESTION:** If swallowed, if conscious, immediately have victim drink water and induce vomiting. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. **INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. **Get medical attention** for ingestion, inhalation, irritation, chemical or thermal burns or "chrome sores", (skin ulcers). Chromates are skin sensitizers. Skin absorption has been reported. **EYES:** Dusts, mists, or solutions can cause severe irritation and conjunctivitis.

SECTION VII SPILL OR LEAK PROCEDURES

Steps to be taken in case material is released or spilled Eliminate all ignition sources. Wear proper protective clothing. Sweep up and place in a suitable container. Flush spill area with water. Keep wash water out of sewers. Collect for disposal.

Waste Disposal Method Discharge, treatment, or disposal may be subject to Federal, State or Local laws. These disposal guidelines are intended for the disposal of catalog-size quantities only.

Dispose of in an approved chemical landfill or contract with an approved and licensed disposal agency.

SECTION VIII SPECIAL PROTECTION INFORMATION

Respiration Protection (Specify Type) Not required in normal laboratory handling. If dusty conditions prevail, work in ventilation hood or wear a NIOSH/MSHA-approved dust mask or respirator.

Ventilation	Local Exhaust	Recommended.	Special	No.
	Mechanical (General)	Recommended.	Other	Adequate to maintain below exposure limit.

Protective Gloves Rubber. **Eye Protection** Chemical safety glasses.

Other Protective Equipment Goggles, smock, apron, eye wash station, proper gloves, ventilation hood.

SECTION IX SPECIAL PRECAUTIONS

Precautions to be Taken in Handling & Storing Store in a cool, dry, well-ventilated area, away from reducing agents. Wash thoroughly after handling. Remove and wash contaminated clothing.
Keep container tightly closed when not in use.

Other Precautions Read label on container before using. Do not wear contact lenses when working with chemicals.

NOTE: Chromium compounds in the form of chromates and dichromates have been found to be mutagenic in bacterial and mammalian cells, including those of the Chinese hamster. Recent studies indicate a significant risk of lung cancer among long-term employees of the chromate producing industry.

For laboratory use only. Not for drug, food or household use. Keep out of reach of children.
