SECTION V HEALTH HAZARD DATA

BB 126

Threshold Limited Value

None established. (ACGIH 1992-93).

Effects of Overexposure

According to Merck Index, Eighth Ed. dyes of this class generally have low toxicity. Specific data is not available. To the best of our knowledge these materials' combined chemical, physical and toxicological properties have not been thoroughly investigated. **EYES:** No specific hazard known, although any chemical that contacts the eye may cause irritation. **SKIN:** Low hazard for usual laboratory handling.

Emergency and First Aid Procedures

EYES: Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention. **SKIN:** Flush thoroughly with water, then wash with mild soap and water. **INGESTION:** If swallowed, if conscious, give one or two glasses of water to drink, induce vomiting and call physician. Never give anything by mouth to an unconscious person. **INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention if symptoms develop or persist.

SECTION IX SPECIAL PRECAUTIONS

Precautions to be Taken in Handling & Storing	Store in a cool, dry place away from light. Wash thoroughly after handling.
---	---

Other Precautions Read label on container before using. Do not wear contact lenses when working with chemicals. There is insufficient data in the published literature to assign complete * numerical hazard ratings and laboratory protective equipment for this product. Special precautions must be used in storage, use and handling. Remove and wash contaminated clothing.

For laboratory use only. Not for drug, food or household use. Keep out of reach of children.
