MSDS No. SS 580
Effective Date May 4, 1999

SECTION V HEALTH HAZARD DATA

SS 580

Threshold Limited Value TWA (Ceiling limit for hydroxide solid) is 2 mg/m³ (ACGIH 1992-93).

Effects of Overexposure May cause severe burns to skin, eyes and mucous membranes. Ingestion may cause burns to mouth, severe stomach pain, bloody diarrhea, vomiting and swelling of the throat. Inhalation of mist may cause mucous membrane irritation or burns, coughing, dyspnea or ulceration of nasal passages.

Emergency and First Aid Procedures
SKIN: Flood with water, then wash with vinegar. **INGESTION:** If swallowed, do NOT induce vomiting. If conscious, drink large quantities of water. Call physician immediately. If vomiting occurs, keep head lower than hips to prevent aspiration. Never give anything by mouth to an unconscious person. **EYES:** Flush thoroughly with water for 15 minutes, lifting lower and upper eyelids occasionally. Get immediate medical attention. **INHALATION AS MIST:** Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.

SECTION VI REACTIVITY DATA

Stability	Unstable		Conditions to Avoid	Keep container tightly closed. Absorbs carbon dioxide from air to form Sodium Carbonate.
	Stable	X		

Incompatibility (Materials to Avoid) Common metals and their alloys (See Section IV); acids and their anhydrides; easily oxidizable compounds.

Hazardous Decomposition Products May release toxic fumes of sodium oxide.

Hazardous Polymerization		Conditions to Avoid	Not applicable.
May Occur	Will Not Occur		
	X		

SECTION VII SPILL OR LEAK PROCEDURES

Steps to be taken in case material is released or spilled Neutralize spill with dilute Hydrochloric acid and flush to sewer with copious amounts of water. Wash spill area with soap and water.

Waste Disposal Method Discharge, treatment, or disposal may be subject to Federal, State or Local laws. These disposal guidelines are intended for the disposal of catalog-size quantities only. Neutralize with dilute Hydrochloric acid and flush to sewer with copious amounts of water.

SECTION VIII SPECIAL PROTECTION INFORMATION

Respiration Protection (Specify Type) None should be required in normal laboratory handling. For misty conditions, work in ventilation hood or wear a NIOSH/MSHA-approved respirator.

Ventilation	Local Exhaust	Recommended.	Special	No.
	Mechanical (General)	Recommended.	Other	No.

Protective Gloves Rubber. **Eye Protection** Chemical safety goggles.

Other Protective Equipment Smock, apron, goggles, face shield, proper gloves, ventilation hood, eye wash station.

SECTION IX SPECIAL PRECAUTIONS

Precautions to be Taken in Handling & Storing Store in a cool place away from acids or acid fumes. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. Keep container tightly closed when not in use.

Other Precautions Read label on container before using. Do not wear contact lenses when working with chemicals. Do not breathe mist. Remove and wash contaminated clothing.

For laboratory use only. Not for drug, food or household use. Keep out of reach of children.
