April 13, 1995

Dear CA-Visual Objects Evaluation Version user,

We are pleased that you have decided to evaluate the usefulness of CA-Visual Objects for your development projects and are certain that you will find it to be a powerful and effective tool for creating applications. You can be confident that Computer Associates will make every effort to insure that CA-Visual Objects remains the premier application development system on the market.

Your evaluation version includes the *Getting Started Guide* and the *South Seas Adventure: An Exploration of CA-Visual Objects* tutorial manuals. If you received the product in diskette format these manuals are included in printed form. If you received CA-Visual Objects in CD-ROM format, the manuals are included in Adobe Acrobat Reader (.PDF) format in the \DOCS directory for on-line viewing.

To view the documentation using the Adobe Acrobat™ Reader, double click ACROREAD.EXE (located in the \DOCS directory) and follow the Acrobat Reader installation procedure. Once the reader is installed, double-click its icon to start the program and select File/Open from the main menu. Select VOGSTOC.PDF for the *Getting Started Guide* Table of Contents, or VOTUTTOC.PDF for the *South Seas Adventure* Table of Contents. Once the Table of Contents has been opened, simply clicking on any entry will display the appropriate section of the documentation.

CD-ROM customers will also find several AVI videos in the \AVI directory on the disk. These may be played using any standard Windows AVI player such as Video for Windows.

For important information about the Evaluation Version of CA-Visual Objects be sure to read the *Read Me First!* and *Evaluation Version Special Issues* sections of the README.WRI file which is placed into the directory in which you installed CA-Visual Objects.

To install the Evluation Version of CA-Visual Objects, double-click INSTALL.EXE from the file manager. INSTALL.EXE can be found in the root directory of Disk #1 of the diskette version, or the \INSTALL directory of the CD-ROM.

At Computer Associates we always want you to get the most value for your software investment. If you want more information about our products and services, or if you want to order CA-Visual Objects, or if you simply have questions regarding Computer Associates or any of our products, please contact our Client Care℠ department where a trained professional is waiting to assist you. In countries not served by Computer Associates offices, please contact your local Computer Associates software distributor. To contact Computer Associates Client Care in the United States call our tool-free number - 1-800-CALL CAI (225-5224) or from outside the U.S. simply call +516-225-5224.

Again, thank you for evaluating CA-Visual Objects - we look forward to haing you as a valued client!

Sincerely,

Philip Montrowe, CA-Visual Objects Product Owner
