COMMENTS,C,207

Introduction to the first ever issue of PC Plus, included as a supplement inside 8000 Plus.
Relational database, runs under GEM

Titled 'Dream Machine - everything you want to know about the Amstrad PC1512', this was the first Amstrad PC review.

The conclusion? "We will certainly be among the first buyers, and suggest you are too."!

Roundup of major software available for the Amstrad PC

Runs under GEM

10 reasons why you might need an Amstrad PC

Runs under GEM

Disks and formatting

Connecting PCs to other types of computer
File copying and directories

Runs under GEM.

Group test of DTP software, plus explanatory text - "Simon Williams puts together the Somerton Boar"

Using Locomotive Basic 2
Deleting files and directories

Group test plus introduction to project management
Guessing game to type in, written in Basic 2
Graphics commands in Basic 2
Tailoring your system and using RPED

Shareware
Shareware
Shareware

Shareware
On-line DOS manual

Runs under GEM

Numbers, arrays and strings in Basic 2
Avoiding data disasters
What happens when you boot DOS?
Introduction to networking
Switching video modes using DEBUG

Add-on database libraries for Zorland C

The trials and tribulations of buying a PC and printer, and getting them to work!

Loop structures in Basic 2
Setting up work disks for applications
I/O redirection - pipes and filters

The effects of monitor emmissions, and product designed to minimise them.
