Functional Module

INSTALLATION & USAGE:

See the Installation document for details and proper installation routines. This routine will NOT work correctly without using the installation routines located in the separate Installation document.

TOOLBAR:

To quickly FAX your document use the toolbar entry of the little telephone. This works the same way as the little printer icon, but sends the document to the FAX modem instead of the printer.

274 

UNINSTALL:

To quickly uninstall:

- 1) Delete this document from your WINWORD\STARTUP sub-directory.

To completely uninstall:

- 1) From the TOOLS | CUSTOMIZE options reset the File Menu Name PRINT AND FAX back to PRINT
- 2) Remove any toolbar entries that you may have made.
- 3) Delete this document from your WINWORD\STARTUP sub-directory. (the most important part)
- 4) Remove the [FAXSupport Marco] entries in your WinWord6.ini file
- 5) Delete the FAXSUPP.DLL from your Windows/System directory.
