

## Unit 9

### U9L1W3 Strategy

Once the iron maidens have been put to rest, jump on the moving bridges and access both buttons. This will open the force-field protecting the platform up to the final level. You may also jump onto the center area to grab some health if you need it.

### U9L2W2 Strategy

While fighting the Makron, be quick on your feet and use the posts as protection. Use something powerful and if you need assistance, step onto one of the two buttons and run to the opposite side of the room to enter below. When you've picked up enough health and ammo, press the green button in the middle of the room to open up the doors again to the surface.

### U9L2W4 Strategy

When you finally succeed in destroying Jorg the Makron...be forewarned that a smaller Strogg will emerge from its ashes.

### U9L2W5 Strategy

Kill him the same way but be careful of the uranium slugs emitting from its nose! Hide behind the posts for cover and when you get a good angle - milk it for what it's worth until he goes down for the count.

### U9L2W7 Secret

When the unit boss is dead, head back down under into the ammo and health depot but now enter the middle hallway. Shoot the crack in the far wall and visit the id software picture gallery!

### U9L2W8 Easter Egg

If you press all the buttons in the picture gallery, a basement compartment will open up with an Easter Egg - a bad-ass Strogg pimp with a couple of iron maidens moaning on each side of him! We're not worthy!
