ChangeCursor Index

The Index contains a list of all Help topics available for ChangeCursor.   You can use the scroll bars to see the entries that are not currently visible in the Help window.

For information on how to use Help, press F1 or choose Using Help from the Help menu.

While viewing the ChangeCursor system menu, you may get context sensitive help by holding down the mouse button and pressing F1 while the item you want help on is selected.   You may get context sensitive help from inside most of ChangeCursor's dialog boxes by selecting the "Help" button in the dialog box.

Click on one of the following items to see more information about it.

The Right Mouse Button
About

Preferences

Preferences allows you to change ChangeCursor's settings.

Select "**Hide Cursor When Typing**" to have ChCursor hide the mouse cursor while you are typing.   The cursor will appear again once you move the mouse.

Select "**Right mouse button shows cursor**" to have ChCursor   display a large "up" arrow so that you can find it on the screen when you press the right mouse button.

Select "**Right mouse button centers cursor on screen**" to have ChCursor center the cursor on the screen when you click the right mouse button.

The Right Mouse Button

Depending on which options you have selected in the Preferences dialog box, pressing the right mouse button will "show" the cursor, move it to the center of the screen, or both.   See <u>Preferences</u> for more information.

About

About displays information about ChCursor.
