DESUTL - Collection of Windows utilities.
Current Version: 1.05

This library contains the following utilities for Windows 3.0:
 RUN - allows the Windows user to execute several applications at the same time while giving each app it's own
    command line. Especially useful for starting several applications when starting Windows.
 CLEAN - clears the Windows clipboard and squeezes as much memory from Windows as it can so that you can
    run those memory hungry applications.
 CLOSER - allows you to close down Windows applications that the Task Manager can't, such as Windows TSR
    programs.
 EXITW - allows you to exit to DOS from Windows without the Program Manager or File Manager arguing about it.

* Please put my name on your registration list and send me the next version free of charge
   I currently using version _____. Enclosed is the required registration fee of $10.
   Please do not send me a disk or documentation $10___

* Diskette with programs and documentation files...... $10___

site licenses of 2 or more available at $4 each.   ___x 4   _____

DESFUN - Collection of TSR's and teasers for Windows 3.0. All of these programs exit when they are finished.
Current Version: 1.03

This library contains the following programs for Windows 3.0:
 FACE - draws 100 faces at random intervals on the screen.
 BURST - draws small cracked areas on the screen at random intervals.
 BURST2 - waits a random amount of time (no less than 1 minute) and then draws a very large cracked area in
    the center of the screen and exits.
 WIZ - is similar to **FAC**E except that this face is of the robot from the movie Wizards.
 EYES - draws a pair of eyes on the screen that follow the mouse cursor. The eyes will randomly move around
    the screen.
 BUGS - draws four types of bugs on the screen for a random amount of time and then exits
 FRIED - is a program for any Friday the 13th. On that day it will put up a message that says "** Help me I'm a
    bug!!! **" and then it will spawn **BUGS** and exit.
