## Sheet1

[illegible]

[illegible]

Primary Identifier:

Primary ID &lt;=====

Optional second Identifier:

Secondary ID &lt;=====

Optional third Identifier:

Third ID <=====

Default name for individual unit of Service/maintenance (singular):

Service Call &lt;=====

@7

At this screen, you can change 5 items that appear throughout the program as default values (indicated with an '<====='). If you now enter any key to continue, the next screen will show one way you could have revised these values.

## Default values for Maintenance and Service Activities

Titles on Menus and Data Entry Screens [except main program menu]

Dallas Truck Maintenance Tracking System &lt;=====

Primary Identifier:

License Number <=====

Optional second Identifier:

Vehicle ID Number (V.I.N.) &lt;=====

Optional third Identifier:

Vendor and Model Number &lt;=====

Default name for individual unit of Service/maintenance (singular):

## Service Call

@7

Observe here that the main identifier has been changed from 'Primary ID' to 'License Number', 'Second ID' to 'Vehicle ID Number, and 'Third ID' to 'Vendor and Model Number'. These changes will now be reflected throughout the program.

## Sheet1
