3	0
Now we are back to the Billings Summary Menu that we examined	0
in the last chapter, before adding 2 new activities. To	0
create a current summary, enter '3'.	0

Updating all of the records in the Service Call File	0
Summarizing all detail Billings records from the Activity File	0

NBF199, Category is : 1
 \$ 50.00, occurred on 03/06/87
 \$ 200.00, occurred on 03/06/87
 TOTAL BILLINGS= \$ 250.00

STW366, Category is : 1
 \$ 35.00, occurred on 12/30/82
 \$ 55.00, occurred on 05/26/83
 \$ 350.00, occurred on 08/23/84
 TOTAL BILLINGS= \$ 440.00

WRX332, Category is : 1
 \$ 450.00, occurred on 01/02/83
 \$ 50.00, occurred on 05/28/84
 \$ 850.00, occurred on 06/28/84
 TOTAL BILLINGS= \$ 1350.00

Grand total = \$ 2040.00

@7

This summary shows the original 6 records from the Test Data,
 plus the 2 new activities you created for NBF199. The Grand
 total has increased from \$1,790 to \$2,040.

Let's go back to the last menu, and create a report from
 this data.

@6

Before going back to the Billings Summary and printing out
 the report, note that you have the option throughout the
 program of sending your reports either to a printer or
 to a text file named 'VIEW.TXT'. In this way, you can
 always create and inspect your reports without having
 to be dependent on your printer being on-line.

-

At the time you create a report, the program will prompt
 you for your choice: to either print it out now or to
 sent the report to the text file.

-

As you create the text file from a report, you can view it
 then or come back later and view it again from the Other
 Options Menu, 1) View or Print Most Recent Report.

@27

R

If you were to enter option 4 to generate the report, your report would be for one truck. For now, enter an 'R' to return.

@6

From the Billings Summary Menu, you can experiment with different combinations of time periods, trucks summarized, and categories selected. This last item will be covered later. As a preview, though, you define Categories in any way you want and can group your records around any one category. For example, you can define each building, shift, or mechanic to have its own category.
