BTW: You need a A4000 with Cyberstorm '060 to see the hidden part!

1.5 System Requirements

1. System Requirements

You need at least a Commodore 64. (to read THIS text)
 You need a 80468 to depack this archive (hu?!)
 Aaaaaaaaaand: You need at least an Escom Amiga 1200
 to RUN this Intro!

This demo was testet on:

- SGI (The machine DIDN'T crash when we copied it
to the Harddisk)
- P6 (But it was far to slow...)
- C16 (with memory-Expansion to 64K)
- On an A1200 and A4030

1.6 Installation

2. Installation

Pull the "Shocked?" Drawer to your Harddisk.

1.7 Usage

3. Usage

Open the Drawer "Shocked?" and click the "Shocked?"-icon (© and TM by Aerosoul). Shortly after this click the icon again. A few seconds later you should be presented with a light-green screen showing that the intro is about to start. From here on you just can't do anything wrong!

Everything is self-explaining - press Help for Online Help. At the end you will be presented with an important message. After reading and considering it for at least 300 times you should slowly move your mousebutton to the close gadget presented to you in the upper left corner of the window.

Then you should restart the intro as described above.

Easy, isn't it?

1.8 Bugs and Future Improvements

4. Known bugs and future improvements

Bugs:

- Doesn't work on a C64.
- Doesn't work on Quickfingers computer (hehehe)

Future improvements:

- Add the whole holy bible as text.
- Add a 3 Mb Raytracing Anim (Crunched with CrM to 7K)
- Add a BBS-Advert for Braincrash BBS --- NOT!
- Choose from all Modules Dreamer has ever created.
- Add 1x1 Chunky Rotate 256 Colours.
- Add textured cube, Doom (TM) engine, Voxelscape --- NOT!

1.9 Development Crew

5. Development Crew:

Spin	Coder-Slave, Music-Deductor and main person behind EVERYTHING!
Dreamer	Noisemaker, Mr. "I want my P6.1a", Main-grumbler
Clue	Apple IIgs-Veteran; the ONLY one, who got NO Amiga!
Aerosoul	IRC-addict, dumb suggestions, but always available (for making pizzas), besides he did the font.

1.10 Greetings

1.11 Wichtig!

7. Read this!

Everybody move your feet
To the rhythm of this beat
Everybody sing this song
Of people having fun!

After this short introduction there with a schlechte
important Massage fuer Euer pleasure. We thought it would be
a gute Idee to write a real old-schooly text fuer your ears.

Hmmm this is Spin at the kEyZ and Dreamer is penetrating me
to get the keyboard under his fingernaegel. Argh!

YeZ! Helloe, dis is Dreamer speaking great words of widom to
your tortured Zahnmeat. Everyone here thinks this is the
stoopids part in this gread Megademo. Were sitting here at
Spins place and kipping us the beers behind the bind. But we
are very hungry, and Aero can't stop crying "Pizzaaaaaaa!
Pizzaaaaaaa!" all the time... so to set him silent, i give
the keys to him...

Blubb Blubb Boys and Blubb Blubb Girls..... all around the
world.... this is aerosoul of nix der you give a verbale
asskick on the very besondere art... like my two brueder
from the DJ BOBO-Dj Clan I can speach very good english
auch, so that there mustn't be a problem in understanding
me... I am very hungerig rechts now, so that I will fass me
short... I only wanted too say, that it was a nice time in
the schiess posse.. and the comploia paralex as unser welt
head quarter has rooleztz too... because we need no AmiEX...

I can nothing dafuer, that everybody der denkt er was elite nur in the shit AmiEX boards rumgurke does... you are keine elite, you are big prolete... aber there are some ausnahmen... so the Lost Carrier BBS rooled doch... auch when it is on Tempest now and offline jetzt... and als abschliessende satz want I noch to my german friends sage, they no english can: Alle Menschen sind klug. Ausnahmen haben die Regel... Ok... jetzt have I doch too much gewrited, so I have to pass the keyboard to codemaster spin...

Yeeeeeeeeeeeeeeeeee Boyz! This is Spin back at the Tasten and we want to say everybody that we left shoot because there aren't the good old times with Online-Conferences at the Paranoia-Complex, Schiel-Pix by Donald and Slide-Shows anymore. Ausserdem we have to say that there is a hidden message in Binary-File. Try to find it! You will be erleuchtet!
