

Welcome to Adobe™ Acrobat™

You're using Acrobat Reader to view a Portable Document Format (PDF) file created by someone else. But you can do much better with Acrobat 2.0 for Macintosh.®

By upgrading to Acrobat 2.0, you can create your own PDF files. That gives you complete control over how your documents look, how they're used, and who uses them—at all times.

To find out more, click on any of these buttons.

Add value to your documents

Make information more accessible

Acrobat 2.0 lets you create PDF files so you can start putting your documents to work electronically and make information more accessible. With the PDF Writer driver included in Acrobat Exchange, you can “print” a PDF file from common business applications, such as word processing and spreadsheet—and send it to anyone for use on Macintosh®, Windows™, DOS and UNIX® computers.

“Acrobat is the most complete solution to the problem of delivering electronic literature-on-demand capabilities to the field sales organization.”

Scott Davison, General Manager of Sales
Information Systems, Medior, Inc.
Software Developer

Add value to your documents

Make documents easier to browse

You can add navigation features such as links and bookmarks to PDF documents, making them faster and easier to skim through than paper documents. In fact, when you click on the Next button at the bottom of this page, you're using links in this document to move from topic to topic.

Click on the Bookmark icon in the menu bar above to display the bookmarks for this file. With Acrobat 2.0, you can create links and bookmarks that instantly take you to related information, even in other PDF files or other applications. For example, you can link to a QuickTime™ movie or to your word processor.

Ready to order?

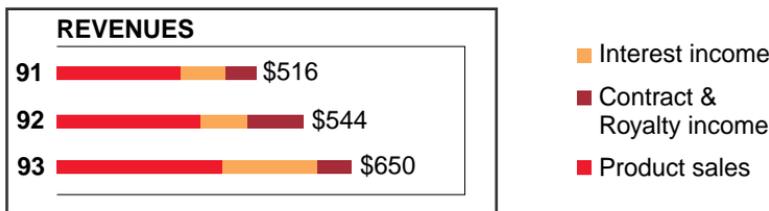

Next

Add value to your documents

Make the most of existing documents

Acrobat lets you reuse information by copying and pasting formatted text and graphics like the chart below into other applications, and by using pages from other Acrobat files to make new documents. Click on the Thumbnail icon in the menu bar above to display the thumbnails for this file.

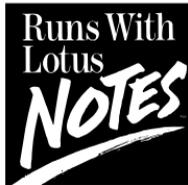

On the left side of the screen, you'll see mini-pages called thumbnails. In Acrobat 2.0, you can easily use them to re-order, move, insert, delete or replace pages within or between PDF documents. It's a great way to make use of existing information without a lot of extra effort.

Add value to your documents

Integrate with existing applications

With its open architecture, Acrobat software adapts to your needs and applications. It supports Lotus Notes®/FX, OLE, DDE, AppleEvents and AppleScript™, so you can easily incorporate it into your application environment. And you can get started with Acrobat now, because it works with your existing file servers, applications and e-mail software.

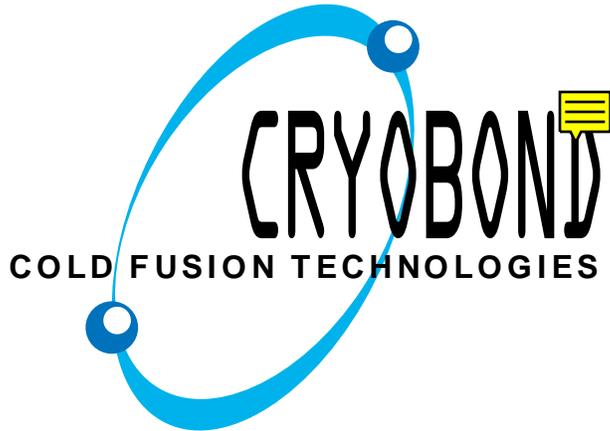

Add value to your documents

Read multi-column documents easily on-screen

Because what's designed for print is not necessarily optimal for on-screen viewing, Acrobat 2.0 provides Article Threads, which let you easily read a multi-column document on-screen. To see article threads at work, click on the Next button below.

PROSPECTUS SUPPLEMENT TO PROSPECTUS DATED
JANUARY 19, 1994

9,500,000 Shares

CRYOBOND INC.

COLD FUSION TECHNOLOGIES

Common Stock

(par value \$.162/3 per share)

Common Stock (par value \$.162/3 per share) All of the shares of Class A Common Stock, par value \$.001 per share ("Common Stock"), offered hereby are being offered by Cole National Corporation, a California corporation (the "Company"). Prior to the offering, there has been no public market for the Common Stock. See "Underwriting" for a discussion of the factors considered in determining the initial public offering price.

The shares of Common Stock offered hereby have been authorized for listing on the New York Stock exchange, subject to official notice of the issuance thereof, under the symbol "CBI"

These securities have not been approved or disapproved by the federal securities and exchange commission or any state securities commission nor has the federal securities and exchange commission or any state securities commission passed upon the accuracy or adequacy of this prospectus. any willful representation to the contrary is a serious criminal offense.

(1) The Company and certain stockholders of the Company have agreed to indemnify the underwriters against liabilities under the Securities Act of 1933 as amended. See "Underwriting"

(2) Before deducting expenses payable by the Company estimated at \$700,000.

(3) Certain stockholders of the Company have granted to the several Underwriters options, exercisable within 30 days of the date hereof, to purchase up to 750,000 additional shares of Common Stock solely to cover over-allotments, if any. If such options are exercised in full, proceeds to such selling stockholders will be \$8,370,000 which amount is net of an underwriting discount of \$630,000. The Company will not receive any of the proceeds from the sale of shares of Common Stock by such selling stockholders. See "Selling Stockholders" and "Underwriting."

The Company

CryoBond, which generated approximately 48% of the nation's electricity is the third largest provider of energy products and fusion services in the United States. As of January 29, 1994, CryoBond operated 774 power plants in the United States and other host nations along with 12 free orbiting power stations under the name "Power Transcom Inc." Effective January 30, 1994, CryoBond acquired the operations of an additional 107 facilities within the United States. CryoBond offers comprehensive management consultation to major employers and health care providers through its managed assets program. CryoBond's product line includes a broad selection of services and accessories at all levels of energy retail and wholesale.

Find information instantly

Acrobat gives you instant access to information. Full-text search across multiple documents lets you instantly retrieve exactly what you're looking for. Search for single words, whole phrases and other information across thousands of documents on your computer or on a network.

“The search capabilities of Acrobat are great. Clients expect fast turnaround and quick retrieval of copy. Acrobat helps us meet and exceed those expectations. Using Acrobat, our clients’ ads are first to market and this definitely helps give them a leg up on the competition.”

Chris Miller, Director of Macintosh Computing,
Capps Studio/Leo Burnett Company

Speed up workgroup projects

Multi-user Notes let workgroups easily review documents electronically to reduce review time. Recipients can merge notes from multiple PDF files into a single PDF file for review. Double-click on the notes below.

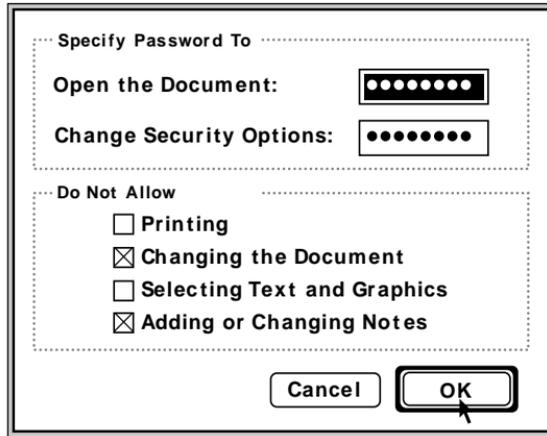

“By moving PDF files through e-mail, we collaborate easily and effectively, even though we’re physically separated.”

Buck & Pulleyn, Advertising Agency

Protect your data

The security features in Acrobat 2.0 provide an excellent way to control access to documents, more easily and efficiently than is possible with paper. You can password-protect your PDF file or give users read-only access to a file by enabling or disabling features such as print, save, and the ability to make any changes or select text and graphics.

The image shows a dialog box titled "Specify Password To" with two sections. The first section, "Open the Document", has a password field with 8 dots. The second section, "Change Security Options", has a password field with 8 dots. Below these is a "Do Not Allow" section with four checkboxes: "Printing" (unchecked), "Changing the Document" (checked), "Selecting Text and Graphics" (unchecked), and "Adding or Changing Notes" (checked). At the bottom are "Cancel" and "OK" buttons, with a mouse cursor pointing to the "OK" button.

Specify Password To

How to order

To create your own PDF files, put Acrobat 2.0 to work for you today by ordering now for just \$117 U.S. That's a \$78 saving on the regular \$195 price.

Acrobat 2.0 for Macintosh includes:

- Acrobat Exchange and the PDF Writer for creating your own PDF files.
- Acrobat Search for full-text search of files indexed with Acrobat Catalog.
- Acrobat Reader 2.0 for Macintosh and Windows that you can distribute freely. Also, Acrobat Reader 1.0 for DOS and UNIX are included FREE of charge.

In North America:

To order, call **1-800-521-1976**. To get the special price, you must mention offer number **9-03-02-9**.

Print and fax the order form to **1-408-655-6096**.

(To access the order form, click the \$ button.)

Or mail the order form to: Adobe Systems Incorporated
P.O. Box 6458, San Jose, CA 93912-6458

Outside North America:

Adobe™ Acrobat™

Capps Studio Ltd.

Chris Miller, director of Macintosh computing, Capps Studio.

Production Studio Serves Clients Like Never Before, Thanks to Adobe Acrobat

When Capps Studio Ltd. looked into supplementing its clients' traditional review process with an electronic one, it evaluated many different options. After in-depth testing, Capps chose Adobe Acrobat Software to make it happen.

Capps Studio, based in Chicago, is a limited partner of the Leo Burnett Co. advertising agency and provides services for clients including Kellogg, Kraft, Nintendo, Oldsmobile, Phillip Morris, Reebok, Sony and United Airlines. Chris Miller, director of Macintosh® computing for Capps, expects the new process to reduce the time

and money needed to bring an ad from concept to print.

“Using Acrobat software, savings can be passed on to our clients without sacrificing image quality,” says Miller. “Portable Document Format files preserve the quality of the image perfectly. So what clients see now is the same quality they saw before with hard copy proofs, plus electronic proofs can cost a lot less to distribute.”

Improved Time to Market

As Capps evaluated remote electronic proofing it saw the potential for saving

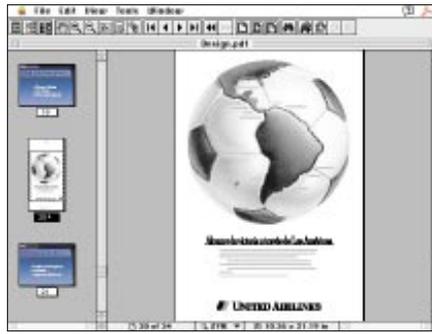

time, for example, by sending files in Portable Document Format (PDF) to clients for comment instead of relying on faxes and hard copy sent by overnight mail. This streamlined approach cut hours and sometimes days from the proofing process by eliminating the need for couriers, express mail, stat production and other time-consuming steps.

In addition, the size of PDF files allow them to be more efficiently transmitted electronically. "PDF files are typically 50 percent smaller than the files created with a document communication program we tried previously," says Miller. "This means files can be transmitted much faster, and thus are less costly than traditional or other electronic means."

According to Miller, Acrobat software ensures that the quality of the electronic proofs are as good as the originals. "Ad clients are accustomed to seeing hard copy proofs that look exactly like the finished product. With the other program, clients complained about the proof quality." When Capps started using Acrobat software, clients were favorably impressed with the image quality of the electronic PDF proofs, which appear exactly as they did on the artist's computer.

More Effective Communication

The new electronic review process will improve communication between Capps and its clients. Acrobat software let the agency go digital without the worry of platform compatibility issues. To design and create ads, the studio uses Apple® Macintosh computers, a wide array of sophisticated drawing and layout programs, and a large library of fonts. Many of Capps' clients have Macintosh computers, but many also have PCs that run DOS or Windows™. Using Acrobat, Capps sends proofs as PDF files that can be viewed

PDF of United Airlines advertisement.

by clients regardless of the type of computer or software they are using.

In addition, clients can comment on the work without actually changing the original, giving the agency more control over the editing process. Acrobat software also helps clients consolidate comments they have made to an ad, and helps Capps to keep track of which member of the client team made each comment and then prioritize changes accordingly.

"We used to spend two days making one change to an ad," says Miller. "With Adobe Acrobat, we can make two changes in one day. Acrobat allows us to provide a faster time to market, and this can give our clients a competitive edge."

Electronic Advertisement Delivery

Capps creates ad slicks and clip art in PDF files for Oldsmobile dealers. Previously, the agency sent stats to dealers, which then created ads by manually cutting and pasting the necessary elements. Now dealers use Acrobat to open and print PDF files of the ads they need. In the future, dealers will be able to make simple edits to the PDF files using Adobe Illustrator™ 5.5 for the Macintosh. "Using the program's ability to edit PDF files, dealers can change prices or make other small edits," says Miller, "while still maintaining the integrity of corporate logos and colors. This saves dealers money, because

they don't have to reinvent the wheel every time. And it gives clients peace of mind, knowing that the corporate look and feel will be preserved."

Keeping Track of Ads

Miller says clients frequently need copies of ads for company presentations and other occasions. Currently, Capps archives all jobs in their native file formats, but with the edit and search features in Acrobat the company may change that. With Acrobat software, Capps doesn't have to worry about which font, application or software version was used to create the document in order to open, view and modify it later.

"Keeping track of ads would be easier with Acrobat, because we could do a search using several different fields and keywords," says Miller. "Acrobat allows us to look up a PDF file of an ad using the art director's name, the creation date or other criteria, rather than requiring an exact job number.

"The search capabilities of Acrobat are great. "Clients expect fast turnaround and quick retrieval of copy. Acrobat helps us meet and exceed those expectations. Using Acrobat our clients' ads are first to market and this definitely helps give them a leg up on the competition."
