

# Willow Pond

## **Thank You, From Willow Pond (<http://www.willowpond.com>)**

Thank you for using this Willow Pond multimedia application. For instructions, please refer to the application Help file, arranged as an on-line hypertext user manual.

Willow Pond offers a line of unique, useful multimedia applications for sale to PC makers and to PC owners. Willow Pond multimedia software lets you amazing things, such as:

- Having your computer read documents to you in a human voice
- Using your PC as a telephone, answering machine, fax, and mail messaging system. You can even call your PC using a standard telephone, and have your electronic mail read to you in a computer voice.
- Modifying the digital audio output from your PC with a wide range of audio effects, even acting as a graphical equalizer, without any special hardware required
- Playing video CD movies on your PC
- Editing music without any musical experience
- Inserting recorded audio and computer speech audio into Windows documents, for sharing with others
- Recording and editing sound clips
