Welcome,

    We're glad you decided to try one of our products.   If there is anything you think we could do better, please feel free to contact us.

    Total Recall is a fun game in which you are asked to repeat the light patterns (steps) the computer generates. It is fully adjustable to any skill level and will provide you with all the challenge your memory can stand.

    Thanks again for taking the time to review our products.

                Sincerely,

                WinGames.Inc

Total Recall

Object:

The object of **Total Recall** is to repeat the light patterns (steps) the computer generates.   To do this simply move the mouse over any light in the step and press the mouse button down. Hold down the mouse button down and move it over all the lights you think were lit in the step.   When all the lights in the step are lit, let the mouse button up and move on to the next step.   Every time you get all the steps right, the computer will add another step to the sequence.   If you get a step wrong the computer will start over again.

Tip: Use the *Speed* and *Lites* slider controls to adjust play.
