

## ImageScaler Order Form

---

Thank you for your interest in purchasing a product from the ImageScaler product of ActiveX controls. Currently the only way to purchase ImageScaler is through a check or money order. Intellidev is working currently to find a better solution for online purchasing.

The ImageScaler product line consists of three different products, ImageScaler Standard, ImageScaler Plus, and ImageScaler Web. Standard edition is designed for integration into private or commercial applications. It does not contain any methods for advanced graphics or web content. ImageScaler Plus has been designed for advanced application developers who need more graphics support from their graphics controls. In addition to all the features of ImageScaler Standard, Plus contains graphic filters for more than 20 different image formats. Plus also has enhanced methods for graphics conversion, printing, and scaling. ImageScaler Web has been built from the ground up to be part of Internet/Intranet solutions. It has full support for all Internet formats, and allows direct downloading of all system supported URIs (including most URLs).

If you would like to learn more about any of these products, please visit our web site at <http://www.intellidev.com/>.

To license this control via standard postal mail:

1. Complete the rest of this form, or go online to <http://www.intellidev.com/order.asp> and fill out the online form. If you fill out the online form, follow the rest of the instructions from the web page, otherwise:
2. Detach the completed form from this letter and send with either a check or money order for the total amount, made out to "Intellidev" in US dollars to:

Intellidev  
Attn: Licensing  
5338 SW Urish Rd.  
Topeka, Kansas 66610-9669  
United States of America

3. To expedite the process of your registration, you can FAX a copy of the order form to 1 (707) 516-7743.
