

## The Registration form for The Internet Mail Suite v2.0

This form is for the registration by regular mail. For other registration options, please refer to the help file **ims2.hlp**, topic **Registration**.

Registered users will receive full source code of all units of the Internet Mail Suite, also the right of the unlimited, royalty free usage of all components included in the package. They also will be eligible for support. We also will be send you free updates and bug fixes, until the release of next major version.

We will be sending the source code, by regular mail, Internet mail, or FTP, depending on your choice
