

VideoPlay/OCX Version 1.5 Trial Release

Thank you for your interest in VideoPlay/OCX, the hottest digital video playback control. This document contains important information about this release so please read.

Trial Release:

This is a fully working copy of VideoPlay. The only limitation for this version is that you will not be able to distribute applications with this version. A splash screen will pop up saying that this is an unregistered copy. This release comes complete with extensive on-line help and sample applications, written in VB to get you up and going quickly. VideoPlay will additionally work in any development environment that supports ActiveX Controls (OLE controls). VC++ sample code for this trial version is available on our BBS, CompuServe forum and Internet web site.

Sample Apps:

Visual Basic samples are provided.

Technical Support:

This trial release mission is to give you an opportunity to test VideoPlay/OCX. If you have any Pre-Sales questions about the product, such as “can it do this” or “can it do that”, we would be happy to answer any of your questions. No technical support is available for the Trial Release, however, all registered owners of VideoPlay/OCX are entitled to technical support.
