

Rename v1.0

Copyright (C) 1994 Jacob M. Ciango

RENAME is public domain, and should be freely distributed to whomever wants it as long as the files are not changed. There should be no charge for this program except for the cost of the disk or the time it took to download.

To Rename a File:

First, change to the directory the file is located in, by double clicking it. Next, select file you want to rename by clicking it. Once you have selected the file, type in the file's new name in the "New Name" text box. Click the "OK" button, and the file is renamed. If you received an error message, the file might already exist, be read-only, or be in use by Windows.

To Rename a directory:

Important: You cannot rename the directory you are currently using!!!

First, make sure the "Rename Directory" box is checked. Next, type the full name of the directory, or highlight the directory you wish to change. Type the new name you wish to name the selected directory in the "New Name" text box.

Click the "OK" button.

If you have any questions or comments, please feel free to write me.

On America On-Line my screen name is: Majerle09

Or you can write:
