

AutoWinNet 1.5 Internet Automation! Leech
TERABYTES of NEW files from the Internet
without even being home! Performs FTP,
USENET, MAIL, World Wide Web with ZERO
effort. Here is an Add-On to your current
SLIP/PPP programs, and works great with IBOX,
Trumpet, Mosaic, and OS/2. Lightning fast,
hammers at busy FTP sites, keeps mailing
lists, tracks your files in its own database.
