The author doesn't assume any responsibility or liability whatsoever with respect to your use of this software and information.

1.4 contents

CONTENTS

This software package consists of the following files:

FReqServer	- the program itself
FReqServer.info	- it's icon
FReqServer.Guide	- english amigaguide doc
FReqServer.Guide.info	- it's icon

1.5 description

DESCRIPTION

The FReqServer is a small Fido-Filerequest-Server which, hum, serves Filerequests. :)

It requires Kickstart 2.04, Workbench 2.0 or better.

The FReqServer contains an embedded version id in CBM format which can be shown using the Shell command VERSION of Workbench 2.0.

All program components are tested with Enforcer V37.28 and MungWall V37.55.

1.6 usage

USAGE

Normaly you should start this program from Trapdoor, but you can use it from your BBS or local, too.

The CLI-arguments and tooltypes are:

FReqServer:

FROM/A - list of files to search.
TO/A - list of files to send.
REPORT/A - where to send logdata to.

MakeIndex:

DIRS/A - dirs where you're files are located.

First make an assign Mail: (normaly this already exists) then generate the index file using the MakeIndex-Script. You can generate a third index-file by yourself, which is containing your magics. It has to look like this:

```
<MAGIC>
<NAME>
<MAGIC>
<NAME>
.
.
.
```

For example:

```
FILES
01730100.lha
NEWFILES
Newfiles.lha
RECENT
RECENT
PROTECTOR
prot17.lha
```

1.7 features

FEATURES

- uses the standard "download-counter" in the filenote.
- it's faaaast!
- small index.

1.8 history

HISTORY

V1.0> (25.01.95)

- first release
-

1.9 bugs

BUGS

Bugs? No... not in 10k...

1.10 thanx

THANX

A special thanx to the following people:

Nobody - for helping me with the code, the docs and the rest.

1.11 plans

PLANS

The following features will be implemented in future releases:

- making it much more faaaster!

1.12 support

SUPPORT

New versions of my products can be downloaded from my BBS or Aminet.

1.13 contact

1.14 lyrics

LYRICS

Anything that happens, happens.
Anything that, in happening, causes something else to happen,
causes something else to happen.
Anything that, in happening, causes itself to happen again, happens again.
It doesn't necessarily do it in chronological order, though.

by Douglas Adams, in "Mostly Harmless".
