1.2 Introduction

What is it for?

Fast and small CLI program to build unix "hoover" script.

Mainly for Aminet FTP places.

Why I made this? This is perfect for ME (own headers).

o Yet another program to do the same thing :)

o Two CED scripts to help this work.

o !!!You can add own headers to script.!!!

1.3 Requirements

Requirements?

Any kind of Amiga and OS 2.04 or better.

I have A3000/6MB/OS3.1

1.4 Using

Using?

Usage: AmiRec Recentfile Outputfile <Header>

Recentfile is filename of ASCII text.

Outputfile is filename of ready ASCII script.

<Header> is filename of ASCII text <- Not needed.

!! New feature in V1.2 !!

If ya want to get .readme instead of binary:

DisplayModeV121.lha util/misc 16K+Screenmode preferences V1.21 (CardWare)

^

^

Change K, M or ? to R - then file readme is taken.

Example of header file. It is added before script.

```
#!/bin/sh
```

```
host=ftp.luth.se
```

```
ftp -n -i $host << EOF
```

```
user anonymous $USER@
```

```
binary
```

1.5 Output

Output?

```
cd /pub/aminet/util/misc
```

```
get DisplayModeV121.lha
```

```
cd /pub/aminet/util/wb
```

```
get CXHandlerV25.lha
```

```
EOF
```

1.6 Recent

DisplayModeV121.lha util/misc 16K+Screenmode preferences V1.21 (CardWare)

CXHandlerV25.lha util/wb 16K+CXHandler V2.5 is an Exchange clone

Obrn-A_1.4_upd1.lha dev/obero 267K+Update to Oberon-A 1.4

1.7 Ced-scripts

CED-Scripts?

It is not necessary to use scripts but they help your life :)

Read scripts to get more information.

1.8 Distribution

Distribution & Copyrights?

AmiRec and all other files, are copyrighted by **Janne Saarme**.

However, this archive may be freely distributed and copied for

NON-COMMERCIAL use only. Under any circumstances may you NOT to

redistribute a modified version of AmiRec. Neither may any

redistribution of DiaMail for profit be made.

If you use AmiRec, you do this entirely at your VERY own risk.

I am not responsible of ANY of the damages AmiRec might cause.

1.9 History

History?

V1.0 - The first release.

(Stardate 00576.4.2)

V1.1 - Small special update for one user.

V1.2 - New feature update.

(Stardate 01481.0.5)

o Added kludge to get .readme texts instead binary.

Read usage!!!

1.10 Thanks

Thanks?

Ville Saari For all C-examples.

Jeremy Friesner For GadMget sources.

1.11 Contact

Contact information?

If you have any suggestions/ideas/bug reports etc. please contact.

Future is open so suggest.

You can reach me from the following addresses:
