

## Contents for Application Update Information

Although most applications designed for Windows version 3.0 work the same in Windows version 3.1, there are a few differences in the way some applications run. The differences, which vary from application to application, fall into three groups:

- Applications that work fine after a minor change to your system configuration or application.
  - Applications that run with Windows 3.1, but to correct minor problems an upgrade is recommended.
  - Applications that must be upgraded to a specific version (or later) to run with Windows 3.1.
- The following list is organized alphabetically so that you can easily find your application and specific information about it. For information about your application, choose the application name from the list and then press ENTER.

[Ace Software AceFile 1.0](#)

**Ace Software AceFile 1.0**

To run AceFile version 1.0 with Windows version 3.1, AceFile must be upgraded to version 1.01 or later.

To obtain an updated version of AceFile, contact your software reseller or call Ace Software at 408-451-0100. Outside the United States, contact your local software reseller or Ace Software subsidiary.

## **Adobe Illustrator**

To run Adobe Illustrator with Windows version 3.1, Illustrator must be upgraded to version 4.0 or later.

To obtain an updated version of Illustrator, contact your software reseller or call Adobe Systems, Incorporated, at 415-961-4992 or 1-800-344-8335. Outside the United States, contact your local software reseller or Adobe Systems subsidiary.

## **Adobe TypeAlign**

To run Adobe TypeAlign with Windows version 3.1, TypeAlign must be upgraded to version 2.1 or later.

If you have TypeAlign installed on your computer and then you install Windows version 3.1, you will not be able to start Windows until you remove the following line from your WIN.INI file:

**load=talgndll.exe**

To obtain an updated version of TypeAlign, contact your software reseller or call Adobe Systems, Incorporated, at 415-961-4992 or 1-800-344-8335. Outside the United States, contact your local software reseller or Adobe Systems subsidiary.

## **Aldus Freehand 3.0**

Aldus Freehand version 3.0 will run with Windows version 3.1, but to correct minor problems an upgrade to Freehand version 3.1 is recommended.

For example, with Freehand version 3.0 you might experience difficulty running the Freehand tutorial.

If you cannot print TrueType fonts when using the printer driver for Hewlett-Packard LaserJet III printers (HPPCL5A.DRV), you may need to select the Print TrueType As Graphics check box in the Options dialog box. To open the Options dialog box, start Control Panel and choose the Printers icon. Choose the Setup button and then the Options button.

For information about obtaining an updated version of Aldus Freehand, call the Aldus Corporation at 206-622-5500. Outside the United States, contact your local software reseller or Aldus subsidiary.

## **Aldus Persuasion 2.0**

Aldus Persuasion version 2.0 will run with Windows version 3.1, but to correct minor problems an upgrade to Persuasion version 2.1 is recommended.

When you use Persuasion and a PostScript printer, you need to install the printer listed as "PostScript Printer" after choosing the Printers icon in Control Panel.

For information about obtaining an updated version of Aldus Persuasion, call the Aldus Corporation at 206-622-5500. Outside the United States, contact your local software reseller or Aldus subsidiary.

## **Bitstream FaceLift 1.2**

Bitstream FaceLift version 1.2 will run with Windows version 3.1, but to correct minor problems an upgrade to FaceLift 2.0 is recommended.

If you are running FaceLift version 1.2 with Windows version 3.1, some screen elements may not be displayed the same as they were with Windows version 3.0. This sometimes happens with display drivers, such as Video Seven, 8514, XGA, and TIGA. To avoid this problem, try using the VGA driver included with Windows version 3.1.

For information about obtaining an updated version of FaceLift, contact your software reseller or Bitstream, Incorporated, at 1-800-522-FONT. Outside the United States, contact your local software reseller or Bitstream subsidiary.

## **Borland C 3.0 Winsight Utility**

To run Borland C version 3.0 Winsight with Windows version 3.1, Winsight must be upgraded to the most current version.

For information about obtaining an updated version of Winsight, call Borland International, Incorporated, at 1-800-331-0877. Outside the United States, contact your local software reseller or Borland subsidiary.

## **Campbell Services On Time 1.0**

To run Campbell Services On Time with Windows version 3.1, On Time must be upgraded to version 1.11 or later.

To obtain an updated version of On Time, contact your software reseller or call Campbell Services, Incorporated, at 313-559-5955. Outside the United States, contact your local software reseller or Campbell Services subsidiary.

## **Central Point Software PC Tools 7.1**

To install PC Tools version 7.1 with Windows version 3.1, you need to use the version of the VFD.386 file that was supplied with PC Tools. To do this, add the following line to the [386Enh] section of your SYSTEM.INI file:

**device=vfd.386**

## **Channel Computing Forest and Trees 2.0a**

To run Channel Computing Forest and Trees with Windows version 3.1, Forest and Trees must be upgraded to version 2.0c or later.

To obtain an updated version of Forest and Trees, contact your software reseller or call Channel Computing, Incorporated, at 603-659-2832. Outside the United States, contact your local software reseller or Channel Computing subsidiary.

## **Claris Hollywood 1.0**

To run Claris Hollywood version 1.0 with Windows version 3.1, Hollywood must be upgraded to version 1.0v2 or later.

To obtain an updated version of Hollywood, contact your software reseller or call the Claris Corporation at 1-800-544-8554. Outside the United States, contact your local software reseller or Claris subsidiary.

## **Coda Finale 2.0**

Coda Finale version 2.0 will run with Windows version 3.1, but to correct minor problems an upgrade to version 2.01 or later is recommended.

For example, the "Show Page" view sometimes displays TrueType fonts incorrectly, and soft fonts might not download correctly to PostScript printers.

To obtain an updated version of Finale, contact your software reseller or call Coda at 1-800-843-2066. Outside the United States, contact your local software reseller or Coda subsidiary.

## **Computer Support Arts&Letters Editor or Composer**

To run Arts&Letters with Windows version 3.1, Arts&Letters must be upgraded to version 3.11 or later.

To obtain an updated version of Arts&Letters, contact your software reseller or call Computer Support Corporation at 214-661-8960. Outside the United States, contact your local software reseller or Computer Support subsidiary.

## **Computer Support Picture Wizard**

To run Picture Wizard with Windows version 3.1, Picture Wizard must be upgraded to version 1.0 dated January 21, 1992, or later.

To obtain an updated version of Picture Wizard, contact your software reseller or call Computer Support Corporation at 214-661-8960. Outside the United States, contact your local software reseller or Computer Support subsidiary.

## **First Byte Monologue for Windows**

If you cannot start Windows after installing Monologue, add the following line to the [386Enh] section of your SYSTEM.INI file:

**device=vpd.386**

## **hDC First Apps Memory Viewer 1.0**

To run hDC First Apps Memory Viewer in standard mode with Windows version 3.1, Memory Viewer must be upgraded to version 1.1 or later.

To obtain an updated version of Memory Viewer, call the hDC Computer Corporation customer service department at 206-885-5550. Outside the United States, contact your local software reseller or hDC Computer Corporation subsidiary.

## **Hewlett-Packard NewWave**

To run Hewlett-Packard NewWave with Windows version 3.1, NewWave must be upgraded to version 4.0 or later.

For information about obtaining an updated version of NewWave, contact your software reseller or Hewlett-Packard Company at 1-800-752-0900. Outside the United States, contact your local software reseller or Hewlett-Packard subsidiary.

## **Lotus Ami Pro 1.2**

Lotus Ami Pro will run with Windows version 3.1, but to correct minor problems an upgrade to Ami Pro version 2.0 or later is recommended.

For information about obtaining an updated version of Lotus Ami Pro, contact your software reseller or call the Lotus Corporation at 404-851-0007 or 1-800-831-9679. Outside the United States, contact your local software reseller or Lotus subsidiary.

## **Microsoft Bookshelf for Windows**

To install Microsoft Bookshelf after you have already installed Windows version 3.1, you must use Bookshelf version 1991\* or later. If you install Windows 3.1 after installing Bookshelf, it is not necessary for you to obtain the updated version.

To obtain an updated version of Microsoft Bookshelf, contact your software reseller or call Microsoft Sales and Service at 1-800-426-9400. Outside the United States, contact your local software reseller or Microsoft subsidiary.

## **Microsoft Word for Windows 1.1**

Microsoft Word for Windows version 1.1 will run with Windows version 3.1, but to correct minor problems an upgrade to Word for Windows version 2.0 is recommended.

When you upgrade Windows from version 3.0 to version 3.1, the new fonts that are included with version 3.1 might not appear in the Word for Windows list of available fonts. To correct this, choose the Print Setup command from the File menu in Word. When the Print Setup dialog box appears, choose the OK button.

For information about obtaining Microsoft Word for Windows version 2.0, contact your software reseller or call Microsoft Sales and Service at 1-800-426-9400. Outside the United States, contact your local software reseller or Microsoft subsidiary.

## **Microsoft PowerPoint 2.0e**

Microsoft PowerPoint version 2.0e will run with Windows version 3.1, but to correct minor problems an upgrade to the latest version of PowerPoint is recommended.

Windows version 3.1 uses more descriptive printer-model names for printer drivers instead of the generic names used in previous versions. PowerPoint does not recognize the new names and will warn you that the printer has changed.

To use TrueType fonts with PowerPoint, you must select a driver other than the Default or Genigraphics printer driver.

For information about obtaining an updated version of Microsoft PowerPoint, contact your software reseller or call Microsoft Sales and Service at 1-800-426-9400. Outside the United States, contact your local software reseller or Microsoft subsidiary.

## **Microsoft Productivity Pack 1.0**

Microsoft Productivity Pack version 1.0 was designed specifically for Windows version 3.0. To run Microsoft Productivity Pack with Windows version 3.1, you need to obtain the updated version that was designed for Windows version 3.1.

To obtain an updated version of Microsoft Productivity Pack, contact your software reseller or call Microsoft Sales and Service at 1-800-426-9400. Outside the United States, contact your local software reseller or Microsoft subsidiary.

## **NBI Legacy**

NBI Legacy will run with Windows version 3.1, but to correct minor problems an upgrade to Legacy version 2.0 is recommended.

For example, you might not be able to print device fonts on Hewlett-Packard Series III printers.

To obtain an updated version of Legacy, contact your software reseller or NBI, Incorporated, at 1-800-NBI-1111. Outside the United States, contact your local software reseller or NBI subsidiary.

## Norton Desktop 1.0

Norton Desktop 1.0 will run with Windows version 3.1, but to correct minor problems an upgrade to version 2.0 or later of Norton Desktop is recommended.

For example, when you try to change an icon's label, you may need to select the icon twice before you can begin the task.

If you have difficulty starting Windows version 3.1 or using sound drivers after installing Desktop, you will need to make the following changes to the [386Enh] section of your SYSTEM.INI file: Add the line **device=\*vdmad** and remove the line **device=vdmax.386**.

For information about obtaining version 2.0 or later of Norton Desktop, call the Peter Norton Group of the Symantec Corporation at 408-253-9600. Outside the United States, contact your local software reseller or Symantec subsidiary.

## **PFS:WindowsWorks 1.1**

PFS:WindowsWorks version 1.1 will run with Windows version 3.1, but to correct minor problems, an upgrade to version 1.2 or later of WindowsWorks is recommended.

For example, you might have difficulty printing files in landscape orientation.

To obtain an updated version of PFS:WindowsWorks, contact your software reseller or call Spinnaker Software Corporation at 617-494-5261. Outside the United States, contact your local software reseller or Spinnaker Software subsidiary.

## **Powersoft Powerbuilder 1.0**

To run Powersoft Powerbuilder with Windows version 3.1, Powerbuilder must be upgraded to version 1.0b or later.

To obtain an updated version of Powerbuilder, contact your software reseller or call Powersoft Corporation at 1-800-395-3525. Outside the United States, contact your local software reseller or Powersoft subsidiary.

## **SofNet FAXit for Windows**

To run SofNet FAXit for Windows with Windows version 3.1, FAXit must be upgraded to version 2.15e or later.

For information about obtaining an update to FAXit version 1.53 that was supplied with the Intel SatisFAXtion board, call the Intel Corporation at 1-800-256-3071.

For information about obtaining an update to FAXit versions 2.0 and later, call SofNet at 404-984-8088. Outside the United States, contact your local software reseller or SofNet subsidiary.

## **WordPerfect for Windows 5.1 File Manager**

The initial release of WordPerfect 5.1 for Windows (11/4/91) will run with Windows version 3.1, but if you encounter minor problems with the WordPerfect File Manager an upgrade to the latest version of WordPerfect is recommended.

For information about obtaining an updated version of WordPerfect, contact your software reseller or WordPerfect Corporation at 1-800-321-4566. Outside the United States, contact your local software reseller or WordPerfect subsidiary.

## **WordStar for Windows**

WordStar for Windows will run with Windows version 3.1, but to correct minor problems an upgrade to the latest version of WordStar is recommended.

For example, some elements of the WordStar screen might not be displayed the same as they were in Windows version 3.0.

Windows version 3.1 uses descriptive printer-model names for printer drivers. Because WordStar does not recognize the new names, you need to update your WordStar templates. Do this by opening a template, selecting the printer you are using, and then saving the new information in the template.

To obtain an updated version of WordStar for Windows, contact your software reseller or call Wordstar International, Incorporated, at 1-800-227-5609. Outside the United States, contact your local software reseller or WordStar subsidiary.
