Ordering Information
page 23

It's the holiday season again, and time for BMUG to spread good cheer, kind thoughts, and offer our members great new deals on a variety of CD-ROMs, books, memberships and more.

We've got brand new products available, as well as updates of your old favorites. The revised PD-ROM, TV-ROM Too, and Tao of Applescript book are especially notable. But don't overlook the other ROMs, floppy disk bundles, books, and the world-renowned BMUG t-shirts.

If you have a Mac-related product in mind for someone special, and we don't sell it, maybe we can still help. Check out the BMUG Choice Products listing, beginning on page 19, and the discounts offered by vendors, on page 20.

BMUG is an educational non-profit corporation which strives to get information into the hands and minds of Mac users the world over, and at the lowest possible prices. No batteries or assembly required.

We're in the business of giving away information.

Transition

After four years, I decided it was time for me to focus on my personal goals for the future, and have resigned as the Executive Director of BMUG.

I will still be available on Planet BMUG, and for the next few months at (510) 549-2684 x212—or you can write me at 1678 Shattuck Ave. #326, Berkeley, CA 94709.

BMUG will continue to need everyone's support, so volunteer and become one of the people who helps make BMUG what it is.

See you all later...

BMUG Memberships

BMUG offers a variety of individual, family, and corporate membership packages, with something for everybody.

You may be interested in our biannual publication, the BMUG Newsletter. At over 400 pages, it's filled with information and contains no advertising.

It may be our two Graphical User Interface Bulletin Board Systems that draw you to BMUG. With one in Berkeley and one in Boston, we have a total of 30 lines and more than 5000 BMUGers online.

It could be our Helpline clinics, staffed by BMUG volunteers eager to help you with technical questions, RAM installation, or file recoveries.

Or, it could be that you simply want to be a part of an organization whose purpose is to inform and educate people about computing and technology.

The BMUG Starter Kit

\$40

*This special bundle comes with a BMUG Newsletter, the PD-ROM, and a six month BMUG membership! **Save \$23***

There's just no way to lose with 600 megs of Shareware, a 500-page newsletter, the BMUG Helpline clinics, and access to one of the BMUG BBSes.

This simple and complete package is a great way to sample BMUG's goods and services—or extend your current BMUG membership.

More CD-ROM membership bundles are listed on Page 7!

Contributing Membership

\$45

BMUG's standard one year individual BMUG membership. Benefits of this membership are:

- Two issues of the BMUG Newsletter
- Access to the BMUG Helpline for one person
- An account on one of the BMUG BBSes (60 min/day)

Sustaining Membership

\$70

This popular membership package is for the person who can't get enough of Planet BMUG or BMUG Boston. The Sustaining member receives an extra 30 minutes per day on either BBS (for a total of 90 min/day) in addition to all the benefits of the Contributing membership, above.

Hero Membership

\$100

BMUG Heroes are a special breed, and this one-year membership recognizes them by offering all the benefits of our Sustaining membership, mentioned above, along with acknowledgement in the BMUG Newsletters, which they receive via First Class mail. Be a hero—support BMUG!

Satellite Club Membership

\$250

This top-of-the-line BMUG membership package includes acknowledgement in two BMUG Newsletters (and First Class mailing), access to the technical Helpline, 2 hours per day on Planet BMUG or BMUG Boston, and two of every product BMUG releases during your membership!

• Call (800) 776-2684 to order! •

Group Memberships

BMUG offers memberships for more than just individuals...

We understand that there are families, departments, companies, and even large corporations who would like to access our Helpline and BBSes, and receive our newsletters.

We've priced these Group Memberships as reasonably as we could, and worked hard to strike the right balance and combination of benefits for the price. If you aren't sure which membership package applies to you, please feel free to call us. We are more than happy to advise you.

Group memberships are not available to individuals.

Family Membership

\$80

BMUG families receive two issues of the BMUG Newsletter, access to the technical Helpline for up to 4 people, and 3 accounts on one of our BMUG BBSes—2 one-hour-per-day accounts, and one 30-minute-per-day account.

Small Business Membership

\$120

- Four BMUG Newsletters (two copies of each issue)
- Access to The BMUG Helpline for 8 people
- Up to four accounts on one of our BMUG BBSes (60min/day)

Corporate Membership Packages

\$250 - \$2500

BMUG's Corporate membership packages are designed to allow larger companies to distribute the benefits of BMUG membership company-wide. Each package comes with multiple copies of the BMUG Newsletter, multiple BBS accounts, and access to the technical Helpline. Please call the BMUG Business Office for details.

The BMUG BBSes

Our Boston and Berkeley-based FirstClass BBSes are great ways to introduce yourself to the world of telecommunications. The graphical user interface of "Planet BMUG" and "BMUG Boston" is less intimidating than the command-line interface of some other BBSes. You can visit any conference area just by double-clicking on an icon, the same way you navigate through your hard drive.

BMUG CD-ROMs

About BMUG's CD-ROMs

One of the most exciting advances of today's computer industry is CD-ROM technology. Because CD-ROMs are an excellent medium for distributing large amounts of data, they give content providers like BMUG a wider range of creativity.

BMUG has always been at the forefront of the CD-ROM wave. We were the first Macintosh users group to release a CD-ROM, and have become the largest publisher of CD-ROMs among our fellow users groups. We take pride in being able to offer the latest technologies in the fast-paced world of computers!

General CD Requirements

- Any Macintosh computer from the Macintosh SE up to and including the Macintosh Quadra/Centris AV series and PowerMacs
- CD-ROM drive
- 2 megs of RAM required, 4 megs of RAM or more recommended

Other CD-ROMs

Digital New England Photo CD

\$30

This Photo CD is from the Macintosh Users Group of the Boston Computer Society. The photographs are all from New England and are organized to take you on a scenic journey and informational tour. Includes photos of downtown Boston, universities, watercraft, mountains, sunsets, and snow scenes. Copyright-light, too!

The Tao of AppleScript, Second Edition

\$20

BMUG's "TAO BOOK" WAS THE FIRST APPLESCRIPT BOOK ON THE MARKET, AND IT'S STILL THE BEST!

While *The Tao of AppleScript* is aimed at beginners, all of our programmer friends keep telling us it is just what they need, too.

This book will show you how to take advantage of the power of AppleScript. It will also show you the mechanics of the language itself and will teach you how to develop your own scripts from scratch, helping you through each step of the scripting process.

The two high-density disks that accompany this book comes with everything you'll need to start your own journey: Apple's official AppleScript software, many utilities to use with it, and even some AppleScript-savvy applications written just for this book!

BMUG's Quicker QuickTime, Second Edition

\$10

INCLUDES TWO DISKS WITH QUICKTIME 2.0!

New as of January 1994, *BMUG's Quicker QuickTime™* is the book that tells you all you need to know about QuickTime to get started using digital video. For non-technical readers this book gives you:

- background information on how QuickTime can bring live action video to your Mac
- clear explanations on how QuickTime works
- easy instructions for viewing, editing, and making your own digital movies
- tips and tricks to amaze your friends and colleagues
- two HD floppy disks with Apple's QuickTime 2.0, MoviePlayer, and QuickTime movies.

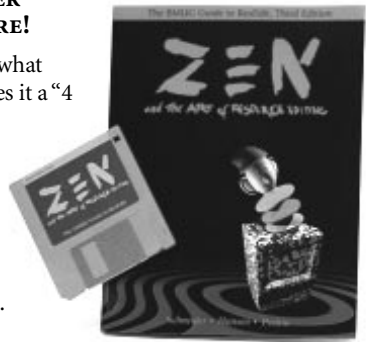

Zen and the Art of Resource Editing

\$15

INCLUDES A DISK WITH RESEDIT 2.1.1 AND OVER 700K OF ICONS, PATTERNS, CURSORS, AND MORE!

MacUser says this book does "a great job of explaining what resources are and how you can use ResEdit..." and gives it a "4 Mice" rating! This 240-page book will tell you how to customize your Mac.

Do fun things like make and use color icons, add desktop patterns, map your keyboard to something more useful, and add Command-key equivalents to your most-used menu commands. Learn how to use some of the hidden features of System 7 to your benefit. BMUG's "Zen" book safely explains all this and more.

Utility Disks

These four sets of utilities offer what we think are the essential utilities for any Mac user.

Compression and virus utilities change often, and BMUG can always be counted on to have the latest updates. The Apple System Update and LaserWriter 8 disks are the official releases licensed from Apple.

Compression Utilities \$3

The Compression Utilities disk contains the essential Shareware compression programs, so you'll never be at a loss. You'll save time online by compressing items before sending them, and save space on your hard drive by compressing items that are used infrequently. MacZip can decompress the DOS compression standard, StuffIt Expander can decompress Compact Pro, StuffIt, and AppleLink compressed files, and DropStuff lets you compress files by dragging and dropping!

DropStuff and StuffIt Expander 3.5.1:

Power Mac native drag and drop compression and expansion utilities. Expander works with StuffIt, Compact Pro, and AppleLink files. Essential!

Compact Pro 1.5: A favorite among sysops.
MacZip 1.0: For all those PC standard files.
StuffIt Lite 3.0.7: The "little brother" of StuffIt Deluxe, with the same compression scheme!

Virus Utilities V1.9 \$3

The Virus Utilities disk contains the very latest Freeware and Shareware virus protection applications. You could pay a lot

more for commercial software, but you really don't have to. What's the first thing we say to people who call and fear the worst? "Turn off all your Extensions, and run Disinfectant!"

Disinfectant 3.5:

Not in your face like commercial virus utilities, this highly recommended Freeware program is all you need to protect your Mac from viruses.

Info About Viruses: All you ever wanted to know!
VirusDetective 5.0.5: by Jeffery Shulman, a great virus detection utility.

System Update 3.0 2 HD disks - \$8

System Update 3.0 improves performance of any Mac running System 7.1 or System 7 Pro. It includes the enhancements offered by Hardware System Update 2.0 and 1.0, and many additional enhancements.

Improvements in 2.0 and earlier: system and high-speed modem reliability, accuracy of the system's clock, and mouse performance on the Color Classic. Corrects problems ejecting floppy disks, problems with Apple Basic Color monitors, floppy disk drive and hard disk problems, and removes horizontal white lines from Macintosh 16" Displays. Includes AutoRemounter 1.2, Apple HD SC Setup 7.2.2, Disk First Aid 7.2, System Enabler 131 v1.0.3 for PowerBook 160, 165c, and 180 for 12" monitors, Memory Control Panel 7.1.1, Macintosh Color Classic System Enabler 401 v1.0.5, Sound Manager, software for the Apple Adjustable Keyboard, PowerBook Control Panel 7.1.3, Express Modem software 1.1.2, and improves font memory management.

Improvements in version 3.0: PowerBook ADB bug fix, PowerBook Shutdown alerts, AppleShare data corruption bug fixes, System file save frequency fixed.

LaserWriter 8.1.1 1 HD disk - \$5

The LaserWriter 8.1.1 printer driver offers improved PostScript printing, advanced paper-handling capabilities, customizable printer resources that support specific printer features and options, full PostScript Level 1 and Level 2 support, enhanced Printing and Setup options.

Floppy Disk Packs

If the Shareware exists, we've got it on disks.

Our disk room volunteers spend countless hours online, foraging the nets for Shareware and Freeware. We take the very best of the best stuff they come up with, and turn them into these convenient disk packs. We know you'll find just what you need.

AfterDark Modules (107) 2 disks - \$8

Font Disk Packs

Looking for the coolest new fonts?

Our latest TrueType and PostScript font packs are cooler than ever, with lots of new fonts to play with—they present the very best Shareware and Freeware fonts available.

TrueType or Postscript?

Well, it's a pretty simple choice. If you have a PostScript printer, Adobe Type Manager (ATM), or System 7.5 with QuickDraw GX, you'll want Type 1 PostScript fonts.

If you're running System 7 or 7.1 and don't need PostScript, you'll want TrueType fonts.

System 6 users can get the System 6.0.7 or 6.0.8 TrueType Extension, or get ATM for \$7.50 from Adobe Systems (800) 521-1976 ext. 4400.

System 6.0.7 and 6.0.8 and the TrueType Extension may be purchased from BMUG.

Donations

BMUG is primarily funded by members, through membership dues and product purchases. These funds are the key to BMUG's day-to-day operations, and we are extremely grateful for them. However, they are not typically sufficient to allow BMUG to offer all of the services and new products that we would like.

Such offerings could include more BBSes outside of the Bay Area, more gateways, an Internet presence, more CD-ROMs, and other products that require more involved

development processes or special licensing. Some of these projects can be paid for with grants, but grants are very specific and are a project in themselves.

Therefore, donations play a major role in BMUG's expansion of services. Donations paid for the modems that allowed us to add BBS lines; they paid for the equipment to set up BMUG Boston, etc. BMUG welcomes donations from members, non-members, foundations, and corporations.

If you, or someone you know, can make such a donation, be assured that it will be greatly appreciated and will lead to real results in our pending projects. BMUG is an educational 501(c)3, non-profit corporation and all donations are tax deductible.

Thank you for your membership in BMUG and your continuing support of our efforts.

Ordering & Shipping

The basics...

Flyer Specials end – January 31, 1995!

Any order, with a U.S. shipping address, placed with the standard \$4 postage and handling charge will be sent via either UPS Ground or U.S. Mail. UPS will not deliver to a P.O. Box. Due to their theft, Newsletter and book orders may be sent library rate.

For an additional charge your order can be sent UPS Next Day or Second Day Air. This is only available via phone with credit card.

Checks must be in U.S. funds drawn on a U.S. bank and made payable to BMUG, Inc. Please do not send cash through the mail. BMUG accepts purchase orders from companies and schools by mail or fax only.

Please include expiration dates of your VISA/MasterCard when ordering by credit card.

Allow 3 to 4 weeks for delivery on all orders.

International Shipping

Fax orders to (510) 849-9026

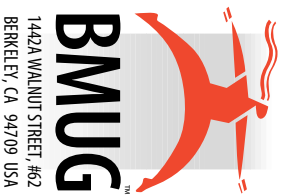

All orders from Africa, Asia, Australia and Europe are delivered via DHL WorldMail and delivered to their final destinations by a local postal carrier. Shipments to Canada, Mexico, and South America are delivered via First Class U.S. Air Mail.

Please read the chart carefully and add shipping charges for each item. For example, the charge for sending a Quicker QuickTime book and a T-shirt to France would total \$14.

Your order will not be sent if you do not include the shipping charges.

The turn-around time may vary, so please allow 6-8 weeks for delivery.
